

We are writing to inform you about our exciting **Apprenticeship** opportunities which are now open for applications here at HSBC.

### **What to expect**

An Apprenticeship leading to recognition against industry standard competencies and the opportunity to gain a professional knowledge-based qualification. The professional qualifications can lead, with further study, to a banking degree. You will also have the opportunity to meet new people, develop your professional network, while earning a competitive salary and benefits package.

At HSBC we value every member of our team, we take the time to get to know our staff and will support you with tailored development plan and internal career opportunities which will allow progression within HSBC. We can offer competitive pay and benefits package. This includes private healthcare for all UK-based employees, enhanced maternity and adoption pay and support when returning to work, and a contributory pension scheme with a generous employer contribution. Search all our open **Apprenticeship** opportunities on Careermap now by clicking the button below.
