

## Egg Blowing!

### MATERIALS

- Fresh eggs, washed
- A small nail (or pin)
  - Bowl
- Dish soap or vinegar

### INSTRUCTIONS

#### Step 1. Make Your Holes

First poke holes at the top and bottom of the eggs with pins. Make the bottom whole slightly larger than the top hole.

#### Step 2. Blow through the small hole.

Then we put our mouths over the top hole and blow.

And blow.

#### Step 3. Wash the hollow eggs.

After blowing out all the eggs, wash the egg shells with soap and water and set them aside to dry. (You could also soak them in vinegar and water.)

Then decorate!

I can't wait to see your decorated eggs! Send me a photo on ClassDojo! Miss Warren ☺
