

## School Meals Entitlement

**Did you know that all children in Key Stage 1 are entitled to a Universal Free School Meal funded by the Government?**

**Why not try a healthy, wholesome nutritious school meal and see what a difference it makes to your child's day?**

**As an education catering company we specialise in providing healthy school meals to around 100,000 pupils per day and these are all analysed by our Nutritionist Amy Teichman to ensure we are complying to all food standard regulations and School Food Plan stipulated by the Government.**

**We base our menu on children's favourites whilst adding in high street trends and what is current in the food market. These are prepared on site daily using quality fresh ingredients from localised suppliers.**

**So why not try a school meal and see whether your child actually likes it, you can opt in for 1 day/ few days or the whole week, the choice is yours. As KS1 parents you won't have to pay for meals as the Government funds them.**

**Menu is on the reverse.**
