Year 2 Topic Planning: Choose 1 activity a day

<p>European Food DT/Writing </p> <p>What is your favourite food from Europe? Is it Pizza from Italy, croissants from France, cheese from Switzerland or chocolate from Belgium? Can you find a recipe containing food from Europe and write it up as a recipe card. Remember to include subheadings, numbered steps and top tips. Maybe you could even have a go at making your recipe with the help of an adult.</p>	<p>Be a travel agent Geography/Writing</p> <p>You are a travel agent with a very fussy customer. He wants you to recommend 5 different countries to visit in Europe with reasons why they are worth a visit. Can you write up your list and interesting facts ready to present to your fussy customer?</p>	<p>Acrostic Poem English</p> <p>Chose a European country and find information out about that county to complete an acrostic poem about it.</p> 	<p>Van Gogh Art </p> <p>Vincent Van Gogh was a Dutch impressionist painter. This painting is called 'starry night' – if you look up at the stars in the sky on a clear night – what do you see? Look at some other paintings and have a go at recreating some of them – if you add flour / or sand to your paint to make it thick and gloopy you will be able to make a textured painting.</p>
<p>Bunting Geography</p> <p>Find something that is oblong shaped in your house and draw around it 6 times. Cut out the oblongs. Choose 6 European countries and recreate their flags onto the oblongs. Stick each of your flags now to a piece of string and ask a grownup to help you hang your flag bunting up somewhere in your bedroom. Can you quiz your grownups and see if they know which flag belongs to which country?</p> 	<p>Make Crêpes DT</p> <p>You will need: 100g plain flour 2 eggs 300 ml milk Pinch of salt Oil for frying</p> <ol style="list-style-type: none"> Put flour and salt in the mixing bowl and crack in the eggs. Pour about 50ml milk onto the eggs and mix well with a whisk. Beat until you have a smooth thick paste. Now add the remainder of the milk. Keep whisking! Wipe the pan with oil using kitchen roll and put onto a medium heat. Add enough batter to coat the bottom of the pan with a thin layer of batter. Leave to fry for approx. 30seconds. Then turn and fry the other side. Enjoy with your favourite topping <p>I wonder how creative you could be with toppings. Take a photograph of your crêpes. Which country do crêpes come from originally? Do other countries have their own version of a crêpe? What toppings do they prefer?</p>	<p>Monet Art</p>  <p>Claude Monet was a French artist – best known for his painting of water lilies. What else can you find out about him? Can you recreate one of his paintings?</p>	<p>Landmarks Geography/Craft</p> <p>Choose and find out about a European landmark.</p> <p>Be creative! Draw, paint, make, build, bake – be as creative as you like! Can you make the Eiffel tower out of twigs you have collected? Can you build Stonehenge out of cheese and crackers?</p>  

Colour Hunt

Language

Can you learn the colours of the rainbow in a European language, French, Spanish, Italian...? Then go on a colour hunt and see how many objects you can find and name the colours. Maybe next time you are out exercising you can have a hunt too.

Windmills

DT

Can you find The Netherlands on a map? What countries is it near to? The Netherlands are famous for windmills. Can you find out why? Perhaps you can have a go at making your own model windmill with sails that move round.

Fashion

DT

Paris is the capital city of France and is famous for being a leading city in fashion. Can you design a new item of clothing for a teddy or a doll or maybe even for yourself or a grown up in your house? You could use newspaper, masking tape and any other scrap craft items you have. We are sure you can create something wonderful.

Flamenco

Dance

Flamenco is a traditional style of Spanish dance using lots of expressive arm and hand movements as well as clapping hands, stamping feet and using castanets. Why not have a go at some flamenco dancing. You could even make some of your own castanets like in the pictures or decorate a paper fan.

Agalmata (Statues)

PE/Garden time

The Ancient Greek are famous for their statues and Greek children love to play a game where they can imitate some of them or make up their own poses. 1 person is 'it' and they count to any number they choose up to 10 (don't tell the others). The others choose a statue pose. 'It' then counts and when they reach their number, they shout 'Agalmata' and the 'statues' must freeze. You are out if you move. 'It' can try to make the statues move or laugh. Change 'it' and play again.

Make a Volcano

Science

Italy has many volcanoes some of which are still active but the most famous eruption was in 79AD when Vesuvius destroyed a city called Pompeii.

Make your own volcano. You will need a plastic cup or bottle, 4 tbsp bicarbonate of soda, red food colouring and white vinegar. Make a volcano using card, playdoh or even just a mound of stones or gravel.

Put the bicarb of soda, food colouring and washing up liquid in your bottle or cup, then put it in your 'volcano'. Finally add your vinegar and watch your volcano erupt!

Can you find out why this happens?

Mosaics

History/Art

Mosaics have a long history and they originate from Greece.

How long have they been around for? Can you find out what they were used for and how they were made? Can you recreate your own using coloured paper scraps?

Leonardo Da Vinci

History/Famous People

Leonardo Da Vinci was Italian. He is most famous as an artist but he was an extremely intelligent man who was also an inventor and scientist. Can you do some research and find out more about him. What did he invent? What did he discover as a scientist? Present your findings however you like... fact file, poster, PowerPoint or make a model of one of his inventions.
