**Literacy**
Watch the attached PowerPoint to find out about pirates.

Imagine that you are going to be a pirate. You will have to do your best work on your application form if you want to be chosen as part of the crew. Read the attached pirate jobs to see which job you would like to do.

*You can print off the attached sheet to record your ideas or make your own.*

Read Write Inc phonics

https://www.youtube.com/channel/UCo7fbLgY2oA_cFClJg9Gdx
https://home.oxfordowl.co.uk/reading/reading-schemes-oxford-levels/read-write-inc-phonics-guide/

This week’s sounds are **ea, oi, a-e, i-e and o-e**
There will also be some longer words practising sounds that you already know.

Ebooks on the Oxford Owl site

https://www.oxfordowl.co.uk/for-home/find-a-book/library-page/

Search for the book about weather. You should find five different books that you can choose from.
* What information can you find out?
* Which book did you enjoy reading the most and why?

**Week beginning 1.6.20**
I hope you had a lovely break last week and enjoyed the lovely weather that we have had.

We will carry on our learning at home for now but hopefully we can be back at school when it is safer to return.

Don’t forget that you can email any of your work to me. I would love to see it.

*Mrs Holt 1VH*

**Science**
This week we are going to think about the work that we have been doing about seasons over the year. Let’s sing our seasons song.

https://www.youtube.com/watch?v=EHnO_Lpfs1g

We have been recording the temperature on one day every month. Remember that the temperature is not the same every day in that month. We checked every day in October.

Compare the temperature on the attached sheet. You can carry on checking the temperature for July and August.

**Numeracy**
This half term, we are going to be learning about different calculation strategies. First we are going to be learning about multiplication.

Let’s get warmed up with a song about counting in multiples. https://www.youtube.com/watch?v=q_yUC1NCfKk
Watch the video below about using repeated addition to work out multiplication problems.

https://www.youtube.com/watch?v=dpFOvoiYDaQ

**Topic**
This half term our topic is Pirate Adventure. This week we are going to create a pirate map.

Visit this website for ideas of how you could create a realistic looking pirate map.

https://www.bbc.co.uk/cbeebies/makes/swashbuckle-treasure-map

Draw some physical features that you might find on an island. Think about some of the things we have drawn on maps at school, such as mountains and rivers.

Solve the problems using repeated addition.
