

## Mathematics

This week children will be learning about problem solving.

### Activity:

Children will continue to learn about sharing today by sharing out their toys between their teddies or another adult. Can you find 4 toys and can you share them equally between 2 teddies or an adult and yourself? Can you now share 6 toys between the 2 teddies? How would you share the toys if you had another teddy or adult? How can you be sure that you have shared the toys out equally? Encourage your child to share them out one at a time and to then check by counting.

Date: Wednesday

# Brain builders

## Remote Learning From Home

## Topic

Our topic for this half term is, 'How do things move?'

### Activity:

With the help of an adult choose a vehicle from the story and find out some facts about it? Encourage your child to remember some of the simple facts. You can write these facts for them.

## Literacy: Phonics

### Activity:

Children to play the silly soup blending game. You will need a large bowl and wooden spoon and some objects from around the house such as a: pen, bag, hat, peg, pan, sock, box, can etc. Display the objects on a table and encourage your child to help put the objects in the soup as you sound them out. Encourage your child to listen to the sounds carefully and locate the object on the table and add it to the soup. Click on the link for the words to the silly soup song.

## Literacy: Writing

With the name writing frame and whiteboard pen provided practise over writing your name. Can you have a go at writing it underneath independently?

Can you also practise writing both of the sounds we have been learning this week? Don't forget to say the rhymes as you write them?

Slither down the snake.
