

Living with COVID-19: advice for those aged 18 and under

Has your child or young person aged 18 or under tested positive, or do they feel unwell with COVID-19 or flu-like symptoms? If so, there are a few simple steps they can take to protect their family and community – especially those at highest risk of severe illness.

 <p>If they feel unwell and have a high temperature, with COVID-19 or flu-like symptoms, they should:</p>	 <p>Try to stay at home, avoid contact with others and follow the guidance on gov.uk</p>	 <p>Try to avoid going to school, college or childcare until they no longer have a high temperature and are well enough to return</p>	 <p>Carry on attending as normal if they only have mild symptoms like a runny nose, sore throat or slight cough and otherwise feel well</p>
 <p>If they have had a positive test for COVID-19, they should:</p>	 <p>Try to stay at home, avoid contact with others for 3 days and follow the guidance on gov.uk</p>	 <p>Try to avoid going to school, college or childcare during this time, where they can</p>	 <p>Go back after 3 days, but only if they no longer have a high temperature and feel well enough to do so</p>
