

Parent/Carer Acceptable Use Agreement

Digital technologies have become integral to the lives of children and young people. These technologies provide powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that children at Harbury will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their on-line behaviour.
- that parents and carers consider the safety of all children, including their own, and do not use social media to share images of other children in Harbury school events

The school will ensure that pupils have good access to digital technologies to enhance their learning and will, in return, expect the pupils to agree to be responsible users. A copy of the Pupil Acceptable Use Policy is attached to this permission form, so that parents / carers will be aware of the school expectations of the young people in their care.

Parents are requested to sign the permission form below to show their support of the school in this important aspect of the school's work.

If you feel your child is too young to sign their own acceptable use form, please complete it yourself.
