

# Motorised Buggy<sup>Q</sup>

**HEPP DT** A SPECIALIST IN PRIMARY DT/STEM **EDUCATION**

## Hepp DT provide specialist and bespoke guidance and skills to your school through Design and Technology projects.

As teaching professionals, we have combined many years of school experiences to offer much needed services within the primary sector. We have already worked with over 100 primary schools since establishing Hepp DT in 2017. Hepp DT are based in Sheffield, South Yorkshire but travel across the country.

Create a fast moving motorised buggy which combines a frame structure with a series of mechanisms (a pulley system as well as wheels and axles) and an electrical circuit. This project is perfect for upper Key Stage 2 children. Who can make the fastest buggy??!
