

Kingsdale Foundation School

Sixth Form

Study Programmes & Courses

Version 1

Introduction

Within this booklet, you will find detailed information covering the Study Programmes offered as part of post-16 learning at Kingsdale Foundation School. It should be read in conjunction with the individual course outlines provided by departments.

Students are strongly advised to consult the course guides carefully before making any choices on their application form. Particular notice needs to be paid to course entry requirements and how subjects link to student aspirations, i.e. higher education and careers.

Please also note that the ability of a course to run is based on the numbers of students who wish to pursue it. Students should also be aware that in some limited situations, timetabling constraints may result in a particular combination of subjects not being possible.

Admission to the Sixth Form does not provide an automatic right to follow a particular programme of study or specific course without meeting our published minimum academic requirements for each subject listed below. All Sixth Form entrants will be encouraged to follow a suitable and prescribed 16-19 Study Programme after Information, Advice and Guidance (IAG) meetings.

Please also refer to the following key documents within the Year 12 Application pack, all of which are available on our website [here](#).

- Sixth Form Application Process Letter
- Sixth Form Prospectus
- Sixth Form Over-Subscription Criteria
- Sixth Form Appeals Process

Post-16 Study Programmes

There are three clear Study Programmes to post-16 learning at Kingsdale Foundation School.

These are as follows:

Programme 1 – A Level Courses (Level 3 Pathway)

Students study 3-4 courses and will need to have gained a minimum of six 9-7 grades at GCSE including English Language and Mathematics. Additionally, individual subjects may require specific grades in particular qualifications to enable study of a designated course. Please see the specific entry requirements for each subject which are listed in this booklet.

Programme 2 – Technical Pathway (Level 3 Pathway)

Students study up to three technical courses, from the course list and will need to have gained a minimum of six 9 - 6 grades at GCSE including English Language and Mathematics. Additionally, individual subjects may require specific grades in particular qualifications to enable study of a designated course. Please see our published course guide for specific subjects and entry requirements.

Programme 3 – Transition Pathway (Level 2 Pathway)

Students study a range of GCSE/Level 2 courses and will need to have gained a minimum of five 9-4 grades at GCSE including English Language and Mathematics. This pathway incorporates one-year transition courses. Please see the specific entry requirements for each subject which are listed in this booklet.

Programme 1 – Advanced (Level 3)

Minimum Entry Requirements – 7 GCSE Grade 9 to 7 or equivalent including English Language and Mathematics

Students will take 3-4 linear A Level courses from the list below. Students are permitted to study 4 courses, following discussion regarding potential careers pathways at their Information, Advice and Guidance meetings.

Students also follow an enrichment programme which includes the options of the Duke of Edinburgh Award, or Community Service. Please see our Enrichment Offer booklet, available on our website and from the School Office, for more information.

Level 3 A Level Courses

The specific entry requirement for each course is listed after each course.
