

Powered by the Loncin V-Twin 586cc engine, producing 12.5kW (17hp), this tractor delivers confident performance in tougher mowing conditions where extra power makes all the difference.

The 40-inch direct collection deck helps you work efficiently across larger lawns, with six cutting height settings from 25–85mm so you can choose the finish that best suits the conditions. As you mow, the Lawnflite Direct Collect™ system channels clippings directly into the spacious 280-litre collector, helping to keep the lawn looking neat and tidy. When the collector is full, it can be emptied easily from the seat using the single tipping lever.

Built with operator comfort and simple control in mind, the premium seat offers a supportive driving position, while the real-time digital display keeps key operating information clearly visible. The hydrostatic drive is controlled by separate forward and reverse pedals, allowing you to adjust your speed smoothly — press down to move faster, or ease off to slow the pace.

With a tight 45cm turning radius, this tractor is easy to guide around trees, borders and garden obstacles, while reverse mowing adds further convenience. For extra flexibility, the included mulch plug allows finely cut clippings to be returned to the lawn to help naturally feed the grass and support healthier growth. An optional deflector is also available for tackling very long grass, giving you another practical option in more demanding conditions.

Specifications

Power	12.5kW 17hp
Engine	Loncin V-TWIN, LC2P73F, 586cc, 2600rpm
Battery capacity	DC12V/18Ah
Fuel tank volume	8.5L
Transmission	Hydrostatic
Turning Radius	45cm / 17.7lbs
Cutting width	102cm / 40"
Cutting height	25 - 85mm 6 positions
Grass catcher	280L
Reverse mowing	Yes
Wheel size	15" / 18" (38cm / 46cm)
Function	Mulching, Collecting & Optional Deflector
Net weight / Gross weight	233kg (513lbs) / 273kg (602lbs)

Accessories

Rear Deflector

Part No: T0920DCZJ00
