

LAWNFLITE

T92RHV2

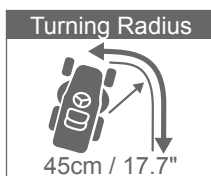

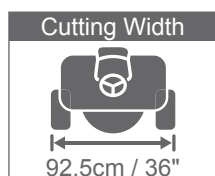

The T92H-L5 is powered by the Loncin V-Twin 586cc engine, producing 12.5kW (17hp) for confident performance in tougher mowing conditions where extra power makes all the difference.

Its direct collection deck, measuring just over 36 inches wide, is designed for efficiently maintaining areas of more than two acres, while the 25–85mm cutting height range gives you the flexibility to suit different lawn conditions. The Lawnflite Direct Collect™ system sends grass clippings straight into the generous 280-litre collector, helping to keep your lawn looking clean and tidy as you mow. Emptying is simple too, with a single lever allowing you to tip the collector without leaving the seat.

Designed with comfort and ease of use in mind, the premium seat gives you a supportive driving position, while the real-time digital display keeps important information easy to see. The hydrostatic transmission is operated by separate forward and reverse pedals, giving you smooth speed control, press down to go faster, or ease off to slow down.

For added flexibility, the included mulch plug lets you return finely cut clippings back into the lawn, helping to feed the grass naturally and encourage healthier growth. An optional deflector is also available for very long grass, giving you another useful option when mowing in more demanding conditions.

Specifications

Power	12.5kW 17hp
Engine	Loncin V-Twin, LC2P73F, 586cc, 2600rpm
Battery capacity	DC12V/18Ah
Fuel tank volume	8.5L
Transmission	Hydrostatic
Turning Radius	45cm / 17.7"
Cutting width	92.5cm / 36"
Cutting height	25 - 85mm 6 positions
Grass catcher	280L
Reverse mowing	Yes
Wheel size	15" / 18" (38cm / 46cm)
Function	Mulching, Collecting & Optional Deflector
Net weight / Gross weight	231kg (509lbs) / 271kg (597lbs)

Accessories

Rear Deflector

Part No: T0920DCZJ00
