

With a direct collection deck just over 36 inches wide and cutting heights from 25–85mm, this tractor is well suited to regularly maintaining areas of more than two acres. The Lawnflite Direct Collect™ system channels grass clippings straight into the large 280-litre collector box, helping to leave a cleaner, tidier finish as you mow. When it's time to empty, there's no need to leave your seat, simply use the single lever to release and empty the collector with ease.

Powered by a reliable Loncin 432cc engine delivering 8.8kW (12hp), this tractor combines confident performance with added comfort and control. The premium seat provides a more comfortable driving position, while the real-time digital display keeps key information clearly in view. The hydrostatic transmission uses separate forward and reverse pedals, allowing you to increase speed by applying more pressure or slow down simply by easing off as you mow.

For added versatility, the included mulch plug allows finely cut clippings to be returned to the lawn, helping to add nutrients and promote healthier, greener growth. When tackling very long grass, an optional deflector is also available, giving you greater flexibility in more demanding conditions.
