

LAWNFLITE

R66RSH

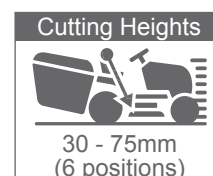

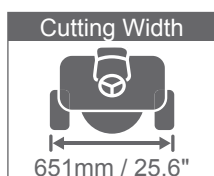

Transform the way you care for your lawn with the compact, yet powerful Lawnflite R66RSH ride-on mower. Thoughtfully designed to be narrow enough to pass through a standard garden gate, it brings the convenience of a ride-on mower to spaces you might not have thought possible. Powered by a reliable 224cc engine producing 4.5kW (6.1hp), it offers the strength you need to tackle your lawn with confidence, time after time.

Enjoy smooth, intuitive control thanks to the hydrostatic transmission, making it easy to manoeuvre around borders, trees, and tighter spaces with precision. The 25-inch cutting width covers more ground in less time, while six adjustable cutting heights (30–75mm) give you complete control over the finish, whether you prefer a close, tidy cut or a slightly longer lawn.

Adapt effortlessly to changing conditions with the versatile 3-in-1 cutting system. Collect clippings for a clean, polished look, mulch to naturally nourish your lawn, or use side discharge to handle longer grass with ease. The generous 150L grass collector means fewer stops to empty, helping you work more efficiently from start to finish.

Built for reliability, comfort, and consistent performance, this mower combines compact design with powerful capability, making it the ideal choice for those who want a faster, easier way to achieve a beautifully maintained lawn.

Specifications

Power	4.5kW / 6.1hp
Engine	Loncin LC1P75F, 224cc, 2800rpm
