

RISK ASSESSMENT TEMPLATE - CAH (Revision: 2)

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice (REVISION 2) – 19/05/2020 (Page 1 of 31)		DATE OF ASSESSMENT 20/08/2020 Oct 2020 Nov 2020 January 2021 February 2021
ESTABLISHMENT/SCHOOL Keelman's Way	SECTION/TEAM Education	
WHO MIGHT BE HARMED? Employees, pupils, trainees, students and visitors p.m.		HOW MANY AFFECTED? 150 pupils 75 staff visitors
<p>Steps of reopening This document has been produced using government guidance and support from H and S The aim is to minimise spread of coronavirus for pupils and adults This will not guarantee safety but mitigate risk It is the responsibility of staff to read, understand and implement these measures Social distancing is especially difficult for our pupils and it is the responsibility of staff to ensure all possible social distancing is followed to reduce risk to themselves and others Capacity is for all pupils. Bubbles will be in place and reviewed regularly. Direct contact and social media will continue to up date parents</p>		

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice (Page 2 of 31)

DATE OF ASSESSMENT

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input checked="" type="checkbox"/> if in place <input type="checkbox"/> if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
--	---------------------------	--	---	---

This Risk Assessment sets out the decisions taken and measures put in place to prepare for the phased re-opening of the school and ensure the school continues to operate in a safe way. Existing policies and guidance continue to apply alongside the actions within this document, including but not limited to:

- Health and Safety Policy
- First Aid Policy
- Child Protection Policy
- Pupils RA spreadsheet
- DFE Guidance relating to COVID19
- The Health and Safety at Work etc. Act 1974
- Management of Health and Safety inin at Work Regulations 1999
- Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013
- First Aid Regulations 1981
- The Health Protection (Notification) Regulations 2010
- Public Health England (PHE) (2017) 'Health protection in schools and other childcare facilities'

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input checked="" type="checkbox"/> if in place <input type="checkbox"/> if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
			Staff seated for breaks and lunchtimes do not need masks but should remain in the bubble groups allocated. All visitors and contractors should wear masks in the communal areas of school throughout their visit.	
Child/Adult is unwell and it is believed that they have been exposed to COVID-19.	If anyone develops coronavirus (COVID-19) symptoms of coronavirus in an education setting they must be sent home and advised to follow the staying at home guidance . If they have tested positive whilst not experiencing symptoms but develop symptoms during the isolation period, they should restart the 10 day isolation period from the day they develop symptoms. Full details on What to do if a pupil is displaying symptoms of coronavirus (COVID-19) can be found - https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/943707/Symptomatic_children_action_list_schools.pdf <ul style="list-style-type: none"> • If a child is awaiting collection, they should be moved, if possible, to music room where they can be isolated behind a closed door, depending on the age of the child and with appropriate adult supervision • Ideally, a window should be opened for ventilation. If it is not possible to isolate them, due to illness or injury move them to an area which is at least 2 metres away from other people. • If they need to go to the bathroom while waiting to be collected, they should use disabled toilet if possible. The bathroom should be cleaned and disinfected using standard cleaning products before being used by anyone else. 	<input checked="" type="checkbox"/>	Parents are instructed that if children have any symptoms of any infection they must not attend and they must confirm that their child is well to staff by phone or in person each day. Music room has been identified as a waiting area should any child need to be picked up by parents during the school session Named first aider on site each session for each department. Only a trained first aider can administer help, an ambulance or parents should be rung otherwise. SLT on site must be informed immediately via office staff PPE procedures are shared and displayed for/with staff. This contains video and poster demonstration of correct use.Visors available on request. Staff and pupils may but are not obliged to wear face covering or mask. (See government guidance)They must follow the advice on how to put on and take off the mask. A poster showing this is on display in each room. Masks must be disposed of carefully	Low

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input checked="" type="checkbox"/> if in place <input type="checkbox"/> if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<ul style="list-style-type: none"> PPE should be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs). In an emergency, call Admin team to call 999 if they are seriously ill or injured or their life is at risk. Do not visit the GP, pharmacy, urgent care If a member of staff has helped someone who was taken unwell with symptoms of coronavirus, they do not need to go home unless they develop symptoms themselves. They should wash their hands thoroughly for 20 seconds after any contact with someone who is unwell. Cleaning the area with normal household disinfectant after someone with symptoms has left will reduce the risk of passing the infection on to other people. You can find guidance https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings Staff and pupils can move another classroom while cleaning takes place if need be 		according to instruction on poster or sealed in a bag to be washed. On request visors will be allocated to named staff for use by that staff member only, and must be cleaned daily after use. Staff showing symptoms must leave for home Site staff will need to clean the room immediately after use. Anyone with symptoms must organise a test and observe Govt advice on isolation. They must advise the school of this and SLT will share this with others in close contact to do the same. Test evidence of the outcome must be given before return. Track and trace will be informed. School will follow STC recommendations and procedures.	
Risk of coronavirus infection spreading to Clinically Extremely Vulnerable (CEV) and clinically vulnerable (CV) adults	CV individuals who are at higher risk of severe illness (for example, people with some pre-existing conditions as set out in the https://www.gov.uk/guidance/national-lockdown-stay-at-home must produce medical advice to support this. All other staff and pupils are expected to attend school.	<input checked="" type="checkbox"/>	HT will follow all advice given by Government and LA HR on who can return to work and who should remain at home. Staff rota in place – all staff aware of when and where they are expected to work in the school buildings. Unless advised by health or HR staff must attend school.	Medium

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input checked="" type="checkbox"/> if in place <input type="checkbox"/> if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>Where schools implement the system of controls outlined in this document, in line with their own workplace risk assessment, PHE and DHSC confirm that these measures create an inherently safer environment for children and staff where the risk of transmission of infection is substantially reduced.</p> <p>All staff should follow the measures set out in the system of controls section of this guidance to minimise the risks of transmission. This includes continuing to observe good hand and respiratory hygiene and maintaining social distancing in line with the provisions as set out in part 5 of the 'Prevention' section.</p> <p>School leaders should explain to staff the measures the school is putting in place to reduce risks. We anticipate adherence to the measures in this guidance will provide the necessary reassurance for staff to return to schools.</p> <p>If staff are concerned, including those who may be clinically vulnerable, clinically extremely vulnerable or at increased comparative risk from coronavirus, we recommend school leaders discuss any concerns individuals may have around their particular circumstances and reassure staff about the protective measures in place.</p> <p>CEV employees to stay at home – “Clinically extremely vulnerable people should not go to the workplace if they live or work in areas where shielding advice is active. Currently this applies to Tier 4 areas only. Shielding advice is currently in place in Tier 4, so all children still deemed clinically extremely vulnerable are advised not to attend school. Children and young people whose parents or carers are clinically extremely vulnerable can continue to go to school.”</p> <p>https://www.gov.uk/government/publications/guidance-on-shielding-and-protecting-extremely-vulnerable-persons-from-covid-19/guidance-on-shielding-and-protecting-extremely-vulnerable-persons-from-covid-19</p>		<p>Remote working will be completed where necessary.</p> <p>School bus will not be used without reference to risk assessment for this.</p> <p>Where shielding is required, copy of government letter presented and staff members to keep HT up to date with developments. Normal absence reporting will be followed</p> <p>Pregnant staff over 28 weeks should not engage in intimate care. Any pregnancy must be disclosed to HT.</p> <p>Roles as stated in HR guidance</p> <p>where possible working on the school premises, SD of 1 metre must be adhered to. PPE and cleaning products are available to all.</p>	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input checked="" type="checkbox"/> if in place <input type="checkbox"/> if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>Staff who are clinically vulnerable Clinically vulnerable staff can return to school. While in school they should follow the sector-specific measures in this document to minimise the risks of transmission. This includes taking particular care to observe good hand and respiratory hygiene, minimising contact and maintaining social distancing in line with the provisions set out in section 5 of the 'Prevention' section of this guidance. This provides that ideally, adults should maintain 2 metre distance from others, and where this is not possible avoid close face to face contact and minimise time spent within 1 metre of others. While the risk of transmission between young children and adults is likely to be low, adults should continue to take care to socially distance from other adults including older children/adolescents. People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace.</p> <p>Staff who are pregnant Employers should conduct a risk assessment for pregnant women in line with the Management of Health and Safety at Work Regulations 1999 (MHSW) https://www.southtyneside.gov.uk/article/36422/Health-and-Safety-Manual-2019 - see Section 3.10 and Appendix F.</p> <p>The Royal College of Obstetrics and Gynaecology (RCOG) has published occupational health advice for employers and pregnant women. This document includes advice for women from 28 weeks gestation or with underlying health conditions who may be at greater risk. We advise employers and pregnant women to follow this advice and to continue to monitor for future updates to it.</p>			

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice (Page 12 of 31)

DATE OF ASSESSMENT

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input checked="" type="checkbox"/> if in place <input type="checkbox"/> if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>“Pregnant women from 28 weeks gestation with no other underlying health conditions should work from home if they can. The key is <u>stringent social distancing</u> which may be easier in secondary schools than nursery and primary schools. If stringent social distancing is not possible then homeworking/alternative work is recommended.</p> <ol style="list-style-type: none"> 1. Pregnant workers over 28 weeks remain at home. 2. Pregnant workers under 28 weeks with underlying health conditions remain at home.” <p><u>Staff who may otherwise be at increased risk from coronavirus (COVID-19)</u> Some people with particular characteristics may be at comparatively increased risk from coronavirus (COVID-19), as set out in the COVID-19: review of disparities in risks and outcomes report, which looked at different factors including age and sex, where people live, deprivation, ethnicity, people’s occupation and care home residence. These staff can return to school in September as long as the system of controls set out in this guidance are in place. The reasons for the disparities are complex and there is ongoing research to understand and translate these findings for individuals in the future. People who live with those who have comparatively increased risk from coronavirus (COVID-19) can attend the workplace.</p>			
Risk of coronavirus infection spreading to shielded and clinically vulnerable persons via pupil or staff attending school	<p>If a child, young person or a member of staff lives with someone who is clinically vulnerable, including those who are pregnant, they can attend their education or childcare setting.</p> <p>Where children are not able to attend school as parents are following clinical and/or public health advice, absence will not be penalised.</p>	<input checked="" type="checkbox"/>	<p>All parents informed of requirements within school and informed if their child cannot or will not follow procedures put in place, we will discuss this with parents and actions taken.</p> <p>Any staff not attending school for agreed reasons should be working on activities that support learning and development for school. e.g sessions for social media, support to parents. contact to families further</p>	low

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input checked="" type="checkbox"/> if in place <input type="checkbox"/> if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
Risk of coronavirus infection spreading due to large class sizes and reduced space	<p>Special school children cannot be expected to remain 2 metres apart from each other and staff. School works through the hierarchy of measures:</p> <ul style="list-style-type: none"> • avoiding contact with anyone with symptoms • frequent hand cleaning and good respiratory hygiene practices • regular cleaning of settings • minimising contact and mixing <p>It is still important to reduce contact between people as much as possible and we can achieve that and reduce transmission risk by ensuring children, young people and staff where possible, only mix in a small, consistent group and that small group stays away from other people and groups.</p> <p>PHE is clear that if early years settings, schools and colleges do this, and crucially if they are also applying regular hand cleaning, hygiene and cleaning measures and handling potential cases of the virus as per the advice, then the risk of transmission will be lowered. Where settings can keep children and young people in those small groups 1 metres away from each other, they should do so. There will be no need to pass in corridors due to the design of school. markers will be in place on the floor.</p>	<input checked="" type="checkbox"/>	<p>Bubbles will be fewer than 15 with a teacher and at least two teaching assistants to support hygiene and distancing. All bubbles having their own designated play space and hygiene facilities. Class bubbles will be specified.</p> <p>Two classrooms and play space will be allocated to each bubble. Break and lunchtime bubbles may be up to 30 pupils.</p> <p>If there are any shortages of teachers, then teaching assistants can be allocated to lead a group, working under the direction of a teacher or senior leader.</p> <p>Pupil work spaces will be spaced as far apart as possible and all classes will have access to outdoor spaces.</p> <p>Our pupils may require more reminders of all measures than mainstream pupils.</p> <p>All rooms in use will have posters and health information on display – specifically targeted at pupils i.e. subtitled social stories</p> <p>Each day will start with the teacher asking pupils and parents about possible symptoms. Symptoms – new continuous cough, a high temp, loss of taste or smell</p> <p>All classes have hand sanitizer and wash facilities</p> <p>Activities planned for pupils will be kept to those with minimum contact. We will be following a 'recovery curriculum' (Barry Carpenter)</p> <p>Pupils made aware of personal space.</p> <p>Hygiene facilities for staff will be separate and specific to staff groups.</p> <p>Furnishing in rooms to be kept to a minimum.</p>	Low

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

			No table group work will be in place unless there can be adequate distance between staff and pupils. Only resources needed for the day to be kept in room and sharing should be kept to a minimum	
Risk of coronavirus infection spreading due to large class sizes and reduced space	<p>The use of small groups restricts the normal operation of schools and presents both educational and logistical challenges, including the cleaning and use of shared spaces, such as playgrounds, boarding houses, dining halls, and toilets, and the provision of specialist teaching. This is the case in both primary and secondary schools, but is particularly difficult in secondary schools.</p> <p>Schools should consider how to manage other visitors to the site, such as contractors, and ensure that the risks associated with managing contractors, visitors, catering staff and deliveries, as well as cleaning staff on site who may be working throughout the school and across different groups, are addressed. This will require close cooperation between both schools and the other relevant employers. Schools should have discussions with Key contractors about the schools control measures and ways of working as part of planning for the autumn term. Schools should ensure site guidance on physical distancing and hygiene is explained to visitors on or before arrival. Where visits can happen outside of school hours, they should. A record should be kept of all visitors.</p> <p>As normal, schools should engage with their local immunisation providers to provide immunisation programmes on site, ensuring these will be delivered in keeping with the school's control measures. These programmes are essential for children's health and wellbeing and can also provide benefits for staff.</p>	<input checked="" type="checkbox"/>	Main Reception will be open to staff and booked visitors only. Only the pupil entrance will be open by buzzer access only Hand sanitiser on entry for all staff and pupils. No unauthorised visitor to be admitted. Staff arrival by 8.35 am. LA Transport 8.45-9.15 Parent Drop offs 8.35-8.45 Social distance of 2 metres is in place for waiting parents	Low
Risk of coronavirus infection spreading due to large class	Keep cohorts together where possible and ensure: <ul style="list-style-type: none"> children and young people are in the same small groups at all times each day and different groups are not mixed during the day, or on subsequent days 	<input checked="" type="checkbox"/>	Pupils and staff will stay together for the full day. Staff rota and not changed without SLT advice	Low

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

Risk of coronavirus infection spreading to children and staff due to lack of PPE	Additional RA for personal hygiene is in place. The majority of staff in education settings will not require PPE beyond what they would normally need for their work , even if they are not always able to maintain a distance of 2 metres from others. PPE is only needed in a very small number of cases including: <ul style="list-style-type: none"> • children, young people and students whose care routinely already involves the use of PPE due to their intimate care needs should continue to receive their care in the same way • if a child, young person or other learner becomes unwell with symptoms of coronavirus while in their setting and needs direct personal care until they can return home. A fluid-resistant surgical face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then disposable gloves, a disposable apron and a fluid-resistant surgical face mask should be worn by the supervising adult. • If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting and staff cannot maintain a 2m distance and there is a risk of them being splashed with spit/saliva then there may be a case for PPE given we are now in sustained community transmission. A surgical mask should be worn and a risk assessment made over eye protection (it's possible that this would be needed if pupil spitting). If any direct contact/care provided, then disposable aprons and gloves should also be used... a face visor may be the better option. • Supplies of PPE are in place. If this becomes impossible, and there is an urgent need for PPE in order to operate safely, they may approach their nearest local resilience forum or contact Philip Dixon PPE_Supplies@southtyneside.gov.uk for any PPE – explain your reasoning from your RA. 	<input checked="" type="checkbox"/>	PPE is available for all to use if requested. All staff aware of RA and its content. All staff to follow ALL advice within this document – control measures and actions. Hygiene procedures with video and poster links have been shared with staff. Posters displayed in all changing areas. Supplies of PPE ongoing and monitored by site staff Staff are not required to wear visors but may do on request. Individual risk assessments around pupils with advice from STC where necessary	Low

Detailed RA support routines for leaving school are available separately.	
Spread of virus during Science, D7T and Food Tech lessons	Schools to follow CLEAPSS (Consortium of Local Education Authorities for the Provision of Science Services) COVID-19 (Coronavirus) in Schools - Returning in September Guidance (20/08/2020) CLEAPSS updated their guidance for schools returning in September. The key guide to read is GL343, this guide should be read alongside all of our COVID-19 guidance (see below for list). Primary schools should refer to the primary website for their guidance. DT Staff should refer to our DT website for their guidance. Science Staff should refer to the Science website for their guidance. CLEAPSS during COVID-19		All class groups prudence their own updated RA for use of Food Tech room These are shared in Google RA drive alongside all other RA docs	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice (Page 28 of 31)

DATE OF ASSESSMENT

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	<input checked="" type="checkbox"/> if in place <input type="checkbox"/> if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>The CLEAPSS office is open Tuesday to Thursday, and helplines are dealt with Monday to Friday 8.30am to 5.30pm.</p> <p>We will continue to answer ALL helplines and continue to develop both emergency guidance for COVID-19 and longer-term developmental guides across all the areas we cover.</p> <p>If you have an EMERGENCY i.e. pupil with chemical in their eye, a chemical spill, or radioactive issue. Then please call 07565 114 059 (available 8.30am-5.30pm weekdays)</p> <p>If you have a COVID-19, technical or subject based question. Then please email it to science@cleapss.org.uk.</p> <p>Please do NOT call the above mobile numbers with routine questions.</p>			
Are there any other foreseeable hazards associated with this activity?	<p style="text-align: center;"><u>List any additional control measures</u></p> <p>Physical intervention with pupils e.g. those needing support through Team Teach strategies</p>		Physically challenging pupils will be admitted to school following detailed behavioural risk assessment.	Low
