

Welcome to Green Class!

Hello, you are going to be in Green Class in September and we look forward to meeting you. You did not get to visit Green Class but we are sure you will enjoy it when you come after the summer holiday. There are 2 grown-ups who will help you in Green Class. Here are our pictures. You may have seen us around school!

Teaching Assistant

Learning in Year 1

There are lots of exciting things to learn and do in year 1. We learn about animals, our senses and trees in science. We design and make our own moving toys and we learn about the history of toys. We also visit a museum to learn about old toys. In the spring time we learn all about living in the north east and we visit local landmarks. To help with your learning - ask your grown up to teach you the countries, capital cities and seas of the United Kingdom.

In our outdoor space we have allotments to grow vegetable and flowers. We also have an invention shed where you can design and make your own creations.

In year 1, we have phonics, writing and maths lessons just like in reception. We also, have two story times each day where we listen to wonderful stories but we still need more books! Could you choose a book for our class?

Visit the website <https://www.lovereadings4kids.co.uk/>, find a book you would like the grown-ups to read in class. Email your name, the title of the book and the author to office@biddickhallinfants.co.uk Type **Choose a Book** in the subject bar. Thank you.

Questions

We are really looking forward to meeting you all soon and your grown-ups too! If there is anything more you would like to know about Green Class please ask your grown up to put your questions in an email to our school office with the title "My questions about Green Class" and we will make sure we get back to you.
