About us

In the early days of SOUNDBOKS, three high school-friends built DIY-speakers for music festivals. After graduation, they decided to officially found SOUNDBOKS with the vision of bringing people together through shared experiences. In early of 2016, SOUNDBOKS participated in Y-Combinator in Silicon Valley for three months, resulting in one of the biggest seed round valuations for any Danish start-up. Since then, SOUNDBOKS has grown exponentially with core markets in Denmark, Germany, and North America.

We are one of the fastest growing hardware start-ups developing, manufacturing and selling the world's loudest battery-powered Bluetooth speaker, primarily targeting European and American markets. Currently we are more than 40 employees across our three offices in Copenhagen - DK (HQ), Los Angeles - CA, USA, and Hangzhou, China.

We have a strong brand profile making SOUNDBOKS not just a speaker, but a community.

Join us on our exciting journey!
