The Weird & Wonderful World of Plants

Botanic Garden Chatterbox

Make this origami chatterbox to play with your family and friends. To learn how to play ask somebody who has used one before to show you or ask an adult to help you look it up online.

Fold the paper until it is creased as shown.

Fold each corner into the centre.

Turn it over and repeat step 2.

Fold it in half horizontally and insert fingers into the slits.

Open it with your fingers and you're ready to play!
