# CHAPTER III – POLICY ON USE OF COUNTRY NAMES ON JERSEYS BY TEAMS NOT REPRESENTING NATIONAL SELECTIONS IN INTERNATIONAL EVENTS

Article 19 WBSC issues this policy direction to its National Federations in relation to those Federations sanctioning participation by teams in international tournaments and competitions conducted by other and youth baseball/softball organisations.

Article 20 A National Federation will not be permitted to allow a team competing in an international tournament to wear a playing outfit, uniform or jersey ("uniform") unless it complies with the following policy.

Article 21 Where the team is not the national team, the uniform colours and style of the team competing in an international tournament must not be the same as or similar to the national senior team uniform or the national youth team uniform of that National Federation.

Article 22 It is the responsibility of the National Federation to advise the baseball/softball organisations of the colours and style of the national team and the national team uniforms for that National Federation and to agree with the relevant baseball/softball organisation the colours and style of the uniform for a team competing in an international tournament that comply with this policy.

Article 23 Where a National Federation changes the uniform colours and style of its national team and/or national team uniform, the National Federation in question must notify the baseball/softball organisations and allow sufficient and reasonable time for the baseball/softball organisations to amend the colours and style of the uniform for a team competing in an international tournament to enable it to comply with this policy.

Article 24 The national flag of the country of that National Federation must not appear on the uniform.

Article 25 The name of the country of that National Federation must not appear on the uniform alone and must be accompanied by one of the words "Region", "Regional" or such other word as may be agreed between the baseball/softball organisations and WBSC.

Article 26 In all relevant broadcasts, publications, programs, media guides and the like for the baseball/softball organisations tournament, the baseball/softball organisations will in good faith use its best efforts to make it clear that the local team only represents a region of that country and is not the National Federation team.

Article 27 In administering this policy, the baseball/softball organisations will liaise with WBSC, but may receive information directly from any affected National Federation.

Article 28 Any dispute in relation to this policy must be referred to the WBSC for good faith negotiations and resolution with the baseball/softball organisation.

Article 29 These principles apply to all teams from National Federations, which have direct qualification into, or participation in international tournaments.

Article 30 The principles set out in this communication may be set out in a subsequent MOU between WBSC and such baseball/softball organisations, but in the interim, the principles set out in this communication remain the agreed position between WBSC, its National Federations and all recognised baseball/softball organisations within their territories.
