

Coleman®-Mach®

ROUGHNECK™ ROOFTOP AIR CONDITIONER

The air conditioner that's
built tough
to take it.

When it comes to air conditioners, power and strength do not necessarily mean the same thing. But they do come in the same package with the Coleman©-Mach© Roughneck™ Air Conditioner.

With 3,95 KW (13.500 BTU) the Roughneck™ gives you plenty of high-efficiency cooling power. It has also a lot of inner strength to handle rugged, off-road and heavy industrial vehicle applications.

It's specially equipped to handle the jarring and vibrations that come with the territory, whether you're in construction, the oil field or just taking the back roads to your favorite fishing hole.
