

CCST ACSR 12/20 (24) kV

Application

CCST is a round-wire, non-compacted, thermoplastic covered conductor. The Steel Reinforced Aluminum Conductor, ACSR is a longitudinal water blocked. All three layers are extruded in the same process. The UV-protected HDPE-jacket is both abrasion and tracking resistant.

- Conductor, ACSR
- Extruded, longitudinal waterblocking layer
- Extruded, inner semiconductive layer
- Insulation of PE
- Outer layer of UV-resistant HDPE

Minimum bending radius	15xD
Lowest temperature for installation	-15°C
Maximum continuously temperature	+70°C

Standard

Conductor	EN 50397-1
-----------	------------

E-number	Area [mm ²]	Construction [-]	Weight, nom [kg/km]	Outer diameter, nom [mm]
0620074	62	7 threads	331	15,40
0620120	99	7 threads	489	18,10
