

LAMPS & MAGNIFIERS

FOR HEALTH & BEAUTY

WELCOME TO DAYLIGHT

FROM THIS POINT ON, EVERYTHING IS WONDERFUL

Everyone at The Daylight Company feels inspired by our clients; the clients who explain how our lamps have changed the feel of their business, and the clients who say their work has never been more precise, accurate and more creative because of our lights.

Daylight luminaires and magnifiers offer specialist lighting that was designed for the needs of beauticians. We think about the alchemy, magic, synergy, and creative spark that happens when the right light illuminates the right muse.

The right light is bright, clear and balanced. It looks elegant and is easy to set up. It is cool to the touch and easy to work with. The right light is a Daylight.

ELEGANT - Daylight lamps are designed to be both effortlessly functional and stylish.

BRIGHT - With their bright LEDs, Daylight lamps light up the subject matter.

BALANCED - Daylight-balanced lighting ensures accurate colour matching.

FLEXIBLE - Position your Daylight where you need light the most.

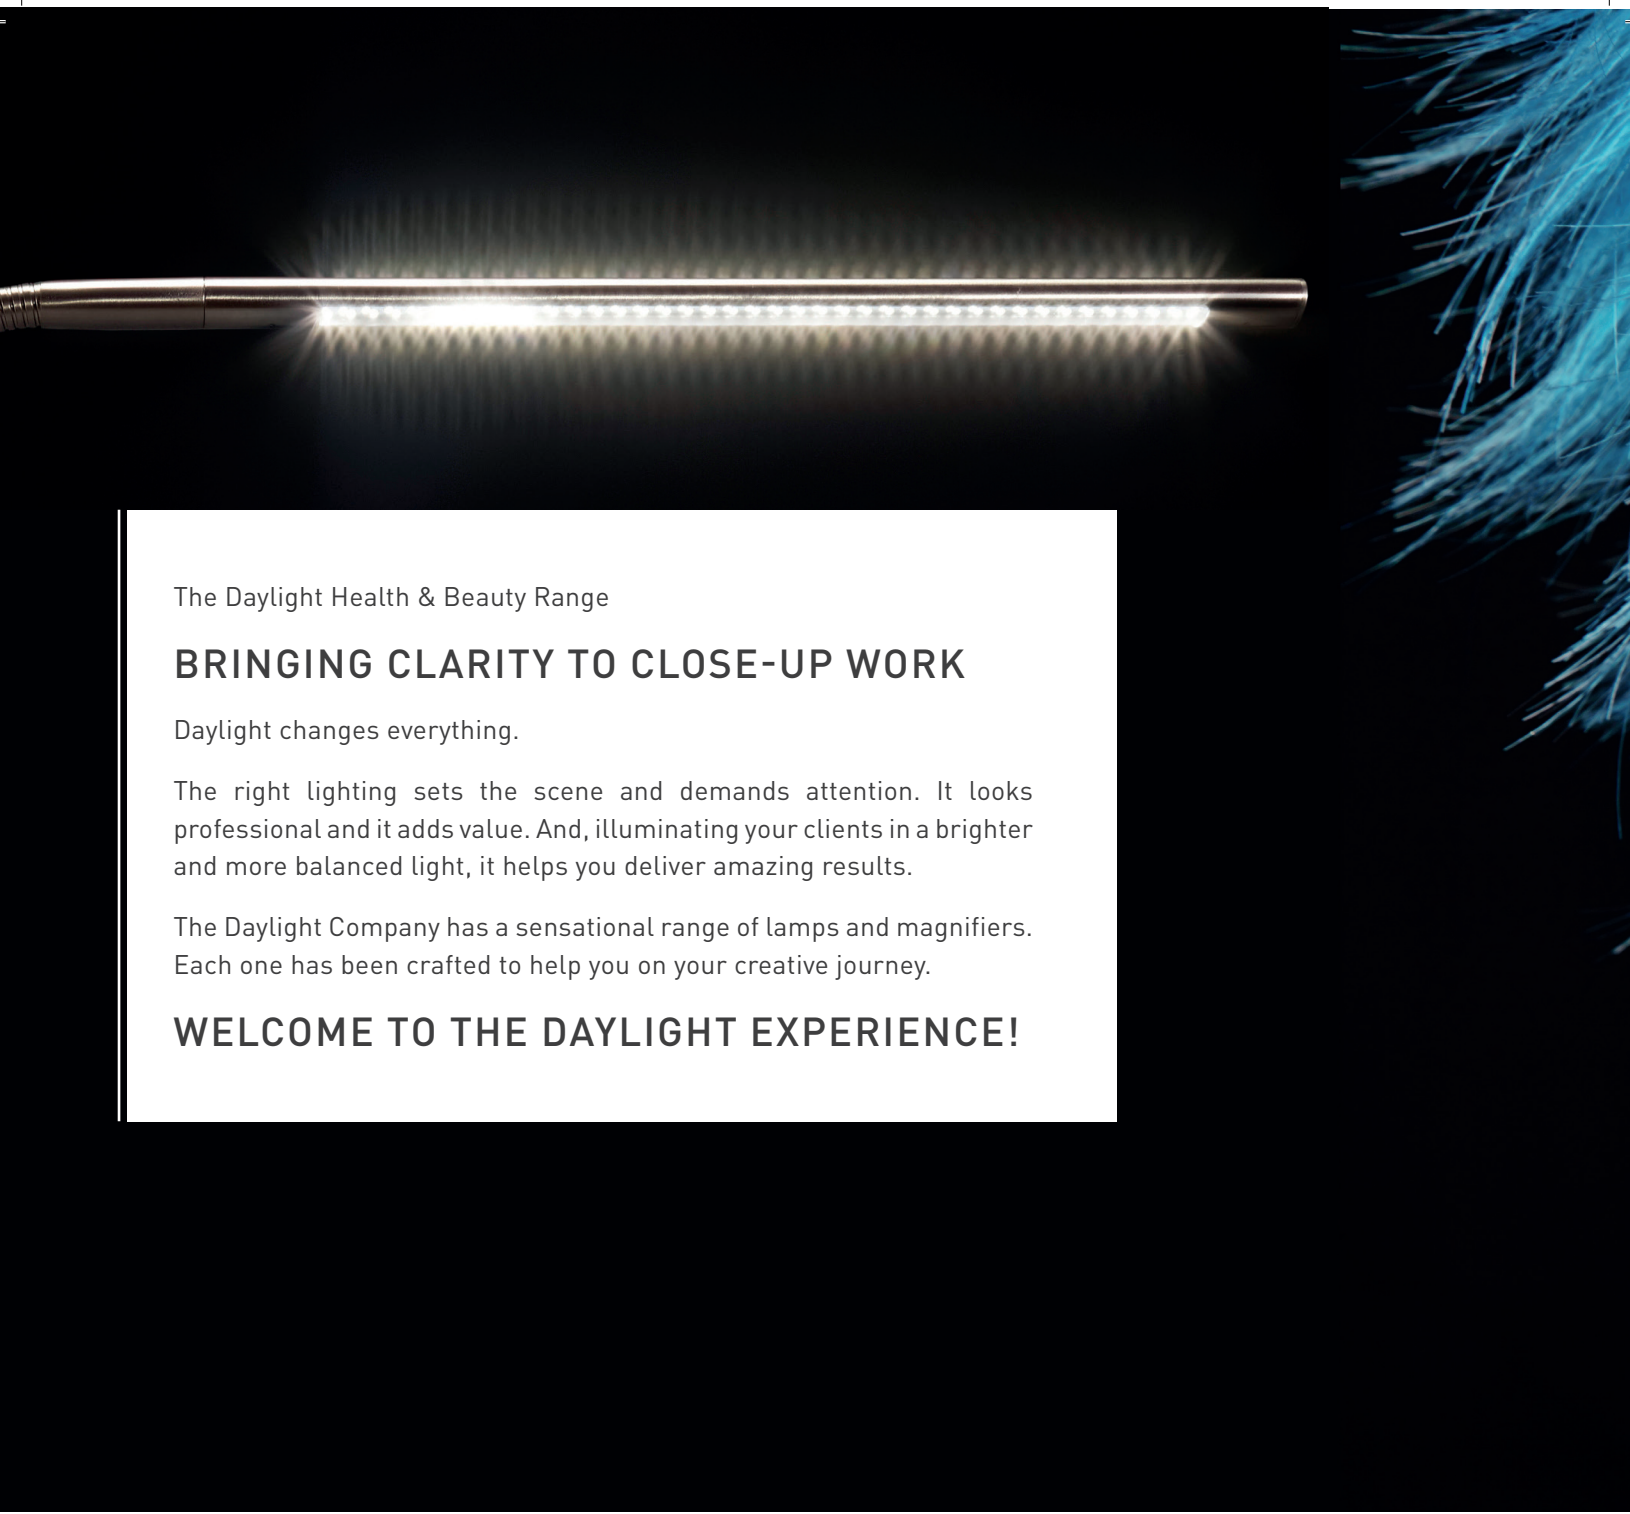

FRIENDLY - Cool to the touch, Daylight lamps produce little or no heat.

Daylight has been lighting up the work of professionals in beauty salons and spas around the world for over 30 years.

Brighten your world of beauty, visit www.daylightcompany.co.uk.

The Daylight Health & Beauty Range

BRINGING CLARITY TO CLOSE-UP WORK

Daylight changes everything.

The right lighting sets the scene and demands attention. It looks professional and it adds value. And, illuminating your clients in a brighter and more balanced light, it helps you deliver amazing results.

The Daylight Company has a sensational range of lamps and magnifiers. Each one has been crafted to help you on your creative journey.

WELCOME TO THE DAYLIGHT EXPERIENCE!

MAGNIFIERS

YOU KNOW YOU'VE SUCCEEDED WHEN ONLY DAYLIGHT WILL DO.

Daylight magnifiers can provide the detail that drives your business to the next level. From facials to podiatry and chiropody, our spa lighting helps to create the atmosphere that your clients seek.

Our elegant magnifiers will help you to present a professional image whilst providing the clarity you need for outstanding results - crystal clear magnification and brightly balanced lighting that is easy on the eye.

Create your own compelling environment with a Daylight magnifier which effortlessly supports close-up work and detailing.

When only success and quality will do, Daylight delivers.

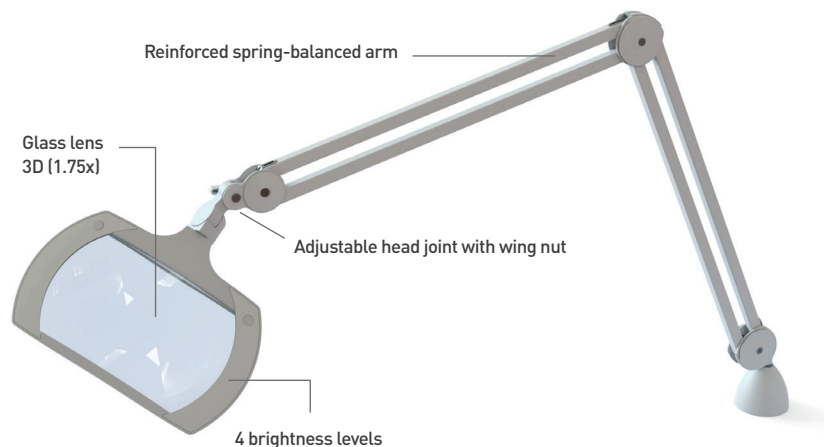

IDEAL FOR:

EYELASHES, FACIALS, PODIATRY & CHIROPODY

Quadra™ Magnifier

D/E25120

Daylight's Quadra™ Magnifier has an extra wide rectangular glass lens, which provides a superb panoramic view. High power 6,000°K daylight LEDs on both sides of the lens give shadow-free magnification. Each side can be independently turned on or off to give 3D viewing. The arm is reinforced with springs and an adjustable wing nut is included, allowing you to place the light where it is needed the most.

Key features

- Wide view 20cm x 12.7cm [8" x 5"], glass lens, 3D (1.75X)
- Bright daylight LEDs (6,000K)
- Left and right sides can be independently switched on or off to give 3D magnification shadow-free
- 4 brightness levels
- Low power consumption and auto switch-off after 9 hours

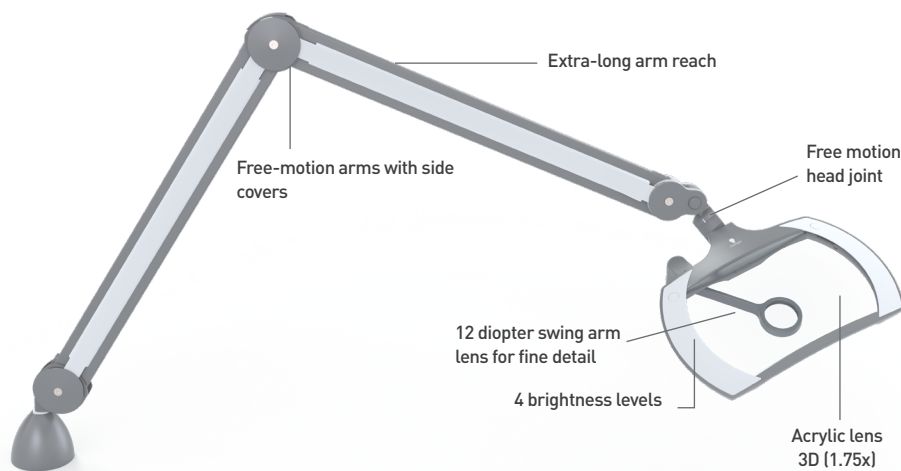

- Reinforced spring-balanced arm
- Adjustable head joint with wing nut
- Extra-long arm reach

IDEAL FOR:

EYELASHES, FACIALS, PODIATRY & CHIROPODY

Quadra™ Plus Magnifier

D/E25140

The Quadra™ Plus features a wide-view and lightweight acrylic lens. Its covered arms are easy to keep clean at all times. The free motion head joint lets you position the head wherever you need it in a single-handed movement, and will hold any position. On each side, the strip of powerful LEDs can be independently switched on or off to give 3D magnification shadow-free. When precision matters!

Key features

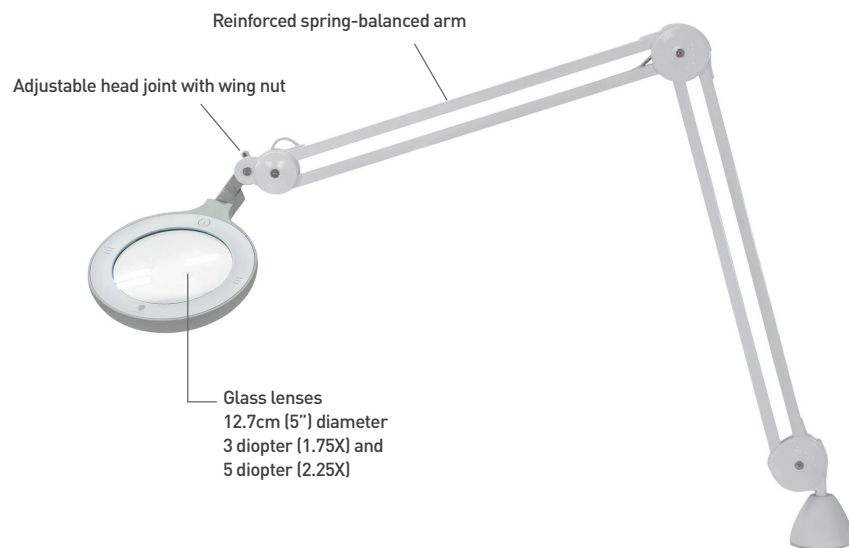

- Wide view 20cm x 12.7cm [8" x 5"], acrylic lens, 3D (1.75X)
- Bright daylight LEDs (6,000K)
- Left and right sides can be independently switched on or off to give 3D magnification shadow-free
- 4 brightness levels
- Low power consumption and auto switch-off after 9 hours
- Free motion arms with side covers
- Free motion head joint
- Extra-long arm reach
- High performance materials
- Xtra lens 12 diopter (4.0X) with swing arm included

IDEAL FOR:
EYELASHES, FACIALS, PODIATRY & CHIROPODY

Omega 5 Magnifier

D/E25110

The Omega 5 delivers the same advanced and innovative features as the Omega 7 but with a smaller 12.5cm (5") diameter, 3 diopter (1.75X) and 5 diopter (2.25X) glass lenses.

Key features

- Ergonomic, stylish and professional design
- Colour matching bright LEDs for detailed work and design
- Control over fine detailing with 2 brightness levels
- Effortless free-motion arm & head joint with wing nut - holds any position
- 12.7cm (5") diameter glass lens
- 3 diopter (1.75X) and 5 diopter (2.25X) lenses are included
- Lamp brightness: 5,500 lux at 15cm (6")
- Maximum reach 115cm (45.3")

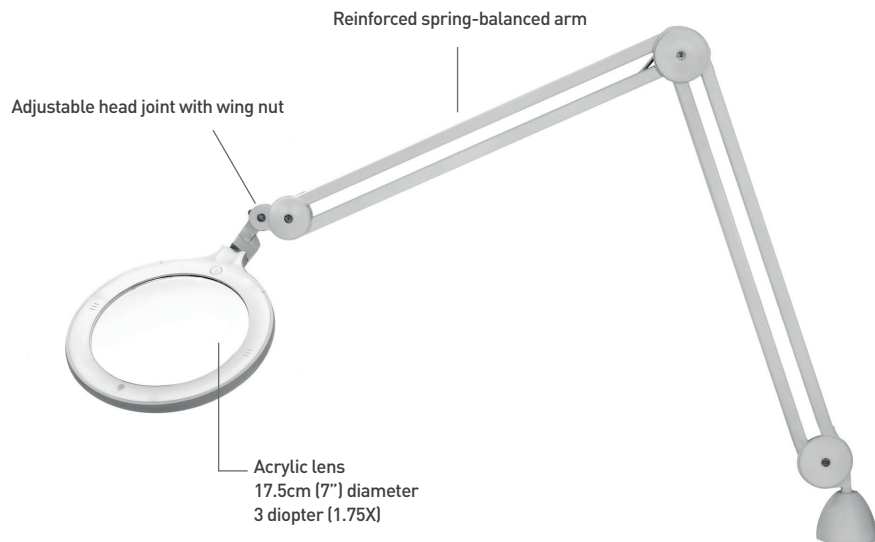

IDEAL FOR:

EYELASHES, FACIALS, PODIATRY & CHIROPODY

Omega 7 Magnifier

D/E25130

The Omega 7 Magnifier is a modern, ergonomically designed magnifying lamp. It has a large lightweight acrylic lens and high power LEDs with two brightness levels for clear viewing. Supplied in an aesthetically pleasing white and grey finish, it fits perfectly within any environment.

Key features

- Ergonomic, stylish and professional design
- Control over fine detailing with 2 brightness levels
- Lightweight lens: large enough for the job, light enough to travel
- 17.5cm (7") diameter acrylic lens
- 3 diopter (1.75X)
- Lamp brightness: 6,300 lux at 15cm (6")
- Free-motion arm & head joint with wing nut - holds any position
- Maximum reach 118cm (46.5")

IDEAL FOR:
EYELASHES, FACIALS, PODIATRY & CHIROPODY

MAG Lamp S

D/EN1200

The modern and slim MAG Lamp S will allow you to see and work on projects where detail is key. It has a 12.7cm (5") diameter, 3 diopter (1.75X) glass lens with two brightness levels. The adjustable spring arm will allow you to position the lamp exactly where you need it.

Key features

- Modern and slim design
- Colour matching bright LEDs for detailed work and design
- Control over fine detailing with 2 brightness levels
- Lamp brightness: 5,300 lux at 15cm (6")
- Head joint with wing nut - holds any position
- Maximum reach 110cm (43.3")
- A floorstand version is also available D/EN1230 (pictured above)

IDEAL FOR:

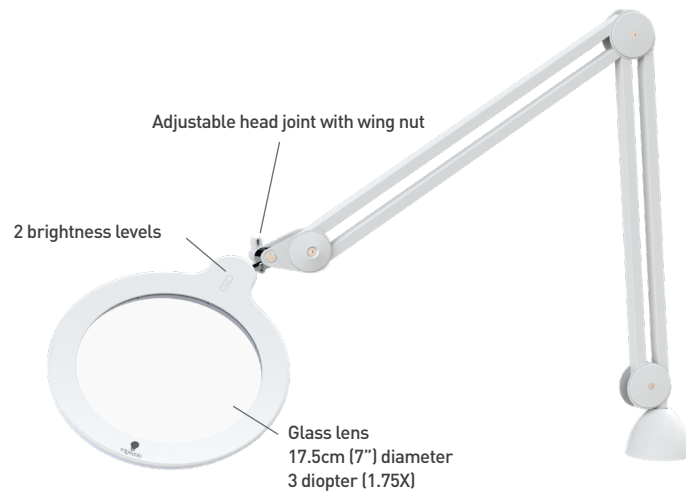

EYELASHES, FACIALS, PODIATRY & CHIROPODY

MAG Lamp XL - NEW

D/EN1300

Big sister to the Mag Lamp S, the Mag Lamp XL features the same great functionalities and design. With a larger glass lens of 17.5cm (7") in diameter, this model will please those who favour a larger lens without compromising on quality.

Key features

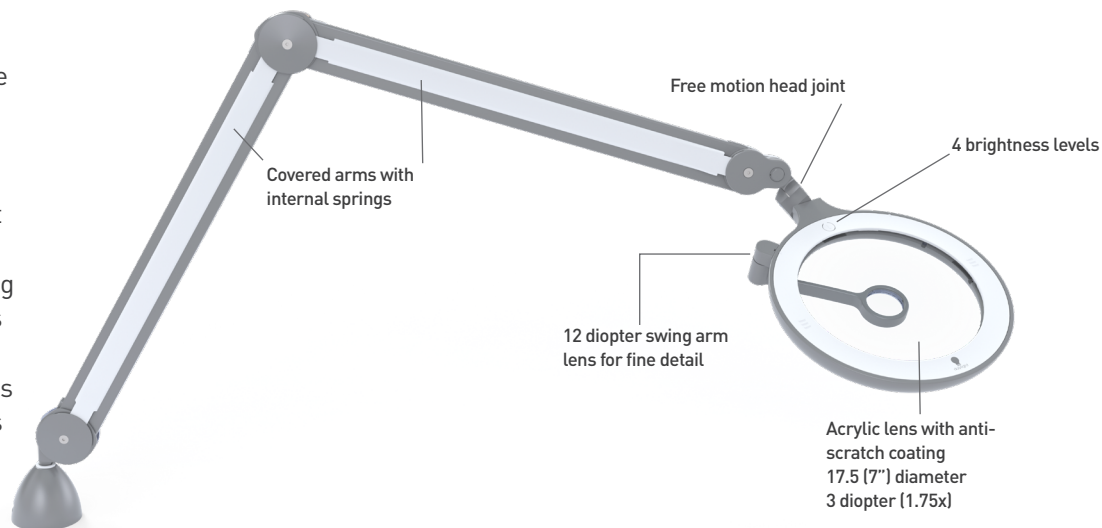

- Modern + slim design
- Colour matching bright LEDs for detailed work and design
- Control over fine detailing with 2 brightness levels
- Lamp brightness: 5,300 lux at 15cm (6")
- Head joint with wing nut - holds any position
- Maximum reach 110cm (43.3")
- 17.5cm (7") large glass lens for detailed work , 3 diopter (1.75X)

IDEAL FOR:
EYELASHES, FACIALS, PODIATRY & CHIROPODY

iQ Magnifier™

D/E25100

The iQ Magnifier has a large lightweight acrylic lens which offers a large field of view. The powerful daylight LEDs provide optimum light for detailed work and the heavy-duty internally sprung arm with side covers allows accurate and consistent positioning. The magnifier is fitted with a removable lens protector.

Key features

- Ergonomic and professional magnifying lamp
- 17.5cm (7") acrylic lens, 3 diopter (1.75X)
- 60 daylight-balanced LEDs for detailed work
- 4 brightness levels
- Lamp brightness: 6,300 lux at 15cm (6")
- Unique quick-swap lens mechanism, no tools required
- Heavy duty arm with covers & reinforced joints
- Long reach 118cm (46.53") max
- Xtra lens 12 diopter (4.0X) with swing arm included

IDEAL FOR:

EYELASHES, FACIALS, PODIATRY, CHIROPODY & NAILS

MAGnificent

D/E25050

The MAGnificent lamp has been cleverly designed to be used as both a floor lamp (with two different height options) and as a table lamp. The high contrast daylight LEDs ensure accurate colour matching and reduce eye strain. The large, semi-rimless 3D (1.75X) magnifying lens provides an uninterrupted view of close-up work.

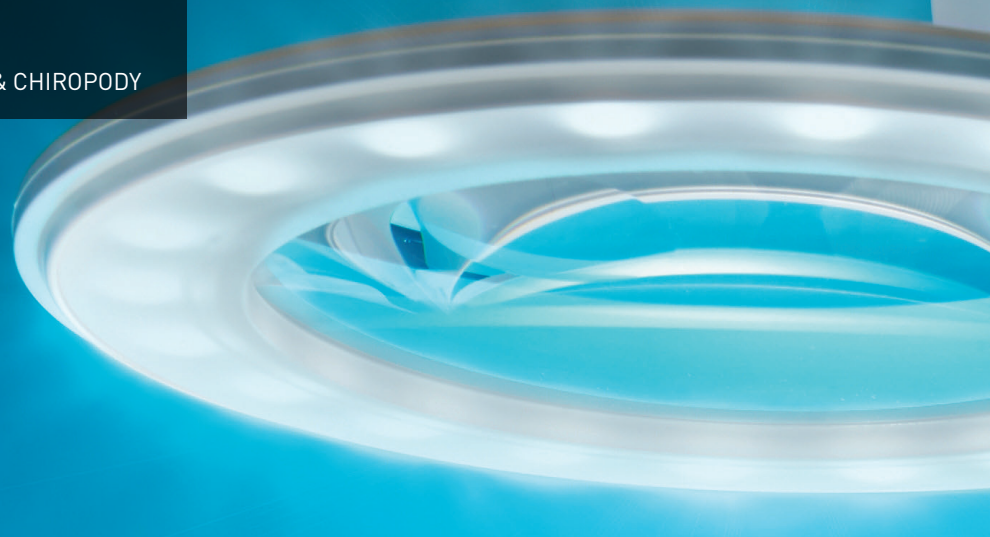

Key features

- Ultra flexible arm allows you to direct the lamp to a position that is comfortable for your work
- Large 14.6cm (5¾") semi-rimless lens, 3 diopter (1.75X) magnification for clear viewing of close-up work
- Lamp brightness: 1,850 lux at 15cm (6")
- Height as a tall floor lamp 125cm (50")
- Height as a short floor lamp 85cm (33")
- Height as a table lamp 50cm (20")

IDEAL FOR:

EYELASHES, FACIALS, MANICURES, PODIATRY & CHIROPODY

**Halo table magnifier**

D/E25200

Compact, all-purpose, table magnifier providing 5 diopter (2.25X) magnification with a 12 diopter (4.0X) inset lens. It takes up very little desk space but is powerful enough for any work requiring close attention to detail. The high contrast daylight LEDs ensure accurate colour matching. Foldable and lightweight - ideal for travelling.

**MAGniflex**

D/E25060

The ultra flexible goose-neck allows you to twist and position the magnifying lens exactly where it is needed. The bright daylight LEDs give the best light for fine detail, colour matching and close-up work and the clamp keeps the lamp firmly locked.

**Key features**

- Compact and portable magnifier and lamp
- Folds completely flat
- Lens rotates allowing inset lens to be positioned as required
- 9cm (3.5") diameter, 5 diopter (2.25X) main lens
- 12 diopter (4.0X) inset lens
- Lamp brightness: 4,000 lux at 15cm (6")

Key features

- 27 high performance, energy efficient daylight LEDs
- 14.6cm diameter, 3 diopter (1.75X) magnifying lens
- Large semi-rimless lens for close-up work
- Flexible goose-neck aims light exactly where you need it
- Table clamp included

IDEAL FOR:

EYELASHES, FACIALS, MANICURES, PODIATRY & CHIROPODY

Infra-red heat lamp

D/E31150

The 250W infra-red heat bulb emits relaxing and healing warmth, for high-standard cosmetic and beauty treatments as well as relief of muscular pain. Complete with a dimmer to regulate the intensity. The grill prevents accidental contact with the bulb and the double-walled shade guarantees that you only heat the targeted body area.

Key features

- 250W infra-red heat bulb for a relaxing and healing warmth
- Relieves muscular pain
- Variable heating output
- Long flexible arm (60cm) directs the light to where it is needed
- Grill protection and double-walled shade ensures safe treatment
- Use 2 heat lamps on one stand with optional T-bar (D51004)
- Replacement bulb available (D11001)

TABLE AND FLOOR LAMPS

BRIGHT AND BALANCED, OUR LAMPS REDUCE EYE STRAIN AND IMPROVE COMFORT.

Daylight lamps increase contrast and provide colour-balanced lighting, which reduces eye strain and allows you to work in comfort for longer.

IDEAL FOR:

EYELASHES, FACIALS, MANICURES, PEDICURES

Lumi™

D/E35500

Multi-use bright and powerful lamp for the application of any treatment. Its wide shade provides a bright spread of light on your work surface. Its sleek and discreet design will complement any treatment room. The large shade can be smoothly adjusted vertically, horizontally and laterally to any desired position. The dimmable light allows easy adjustment when less light is required. Master intricate details with the Lumi™!

**Key features**

- Modern and ergonomic design
- Powerful daylight LEDs
- 2 brightness levels
- Lamp brightness 3,800 Lux at 30cm (12")
- Wide shade provides even spread of light over large areas
- Multi position head joint to direct light where needed
- Arms with internal springs
- Long reach: 108cm (42.5")

IDEAL FOR:

EYELASHES, FACIALS, MANICURES, PEDICURES

Luminos™

D/E35600

Perfect for facial work, this powerful LED lamp offers high contrast light output, providing an exceptionally wide spread of controlled and dimmable light. The arm has a long reach and can be moved easily with one hand and the shade too can be positioned exactly where it is required. The addition of an optional floor stand ensures full mobility.

**Key features**

- Brightest light in the Daylight range
- Ideal for spas and salons
- Perfect for facial work
- 120 powerful Daylight LEDs
- 3,800 lux at 30cm (12")
- 3 brightness levels
- Ultra-wide shade 65cm (25½") provides a wide spread of light
- Effortless free-motion head and arm - holds any position
- Reinforced joints and covers
- Long reach: 112cm (44")
- Floor stand available separately D53060

IDEAL FOR:

EYELASHES, EYEBROWS, THREADING, PERMANENT MAKE-UP, 3D BROWS, MICRO-BLADING

Ultra-Bright Slimline™ LED table lamp

D/E35127

This powerful LED table lamp will add value to any salon. The ultra-bright LEDs are dimmable, the two flex point provide a long arm reach and a wide, even light coverage; perfect for large work surfaces! The daylight light source reduces eye strain and glare for healthy vision and allows true colour matching. The Ultra-Bright Slimline has been designed to take up minimum space on your work table.

**Key features**

- Direct light exactly where you need it
- Adjustable and rotating head
- 2,100 lux at 30cm (12")
- Control over fine detailing with 3 brightness levels
- Does not get hot, does not cure gel polish, does not dry brushes
- Elegant brushed steel finish
- Flexible arm with 73cm (28.7") reach for wide spread of light
- Supplied with high quality metal clamp
- Easy to pack up and very portable
- Slimline table base available separately (D52107)

IDEAL FOR:
COSMETIC & BEAUTY TREATMENTS

Slimline™ LED floor and table lamps

D/E35117 and D/E35107

Perfect for salons, these stunning brushed chrome lamps take up very little space and light up large areas, providing bright daylight-balanced lighting for a variety of health and beauty treatments. With two unique flex points, the light can be directed where it is most required. The slim head design ensures perfect shadow-free lighting.

D/E35117 Slimline LED floor lamp

D/E35107 Slimline LED table lamp

Slimline LED table lamp with clamp

Key features

- Ideal for eyelash, eyebrow and permanent make up
- Stylish brushed chrome finish, for modern interiors
- Slim head design ensures shadow-free lighting
- Bright daylight LEDs for accurate colour matching
- Lamp brightness: 1,630 lux at 15cm
- Does not get hot, does not cure gel polish, does not dry brushes
- 2 flexible joints to easily adjust height and light angle
- Direct light exactly where you need it
- Long arm reach of 73cm (28.7")

IDEAL FOR:
EYELASHES, MANICURES, PEDICURES

UnoLamp

D/EN 1410, 1420, 1430

Our most popular light for nail salons and experts, the UnoLamp is resilient and beautiful. From express manicures to luxury spa routines, the shape, shades, colours and impact of your manicures rely on light that delivers. The elegant design - there are floor, desk and clip-on versions - provides bright daylight-balanced lighting for accurate colour matching. The LEDs are dimmable and generate very little heat.

Key features

- Great option for beginners
- Flexible arm directs light exactly where you need it, easy to carry
- 28 high quality bright LEDs provide accurate colour matching
- Does not get hot, does not cure gel polish, does not dry brushes
- Touch-switch dimmer with 4 brightness levels
- Lamp brightness: 1,145 lux at 30cm (12")

IDEAL FOR:
EYELASHES, MANICURES, PEDICURES

DuoLamp

D/EN 1510, 1520, 1530

With two light sources, our elegant DuoLamp increases the illuminated workspace, providing bright, evenly distributed daylight-balanced lighting for a variety of spa treatments. Like the UnoLamp range, there are floor, desk and clip-on versions. The right shade of polish is vital to expert nail technicians and stylists. The luxurious light allows you to pick the right colour, design the perfect contour and create a beautiful manicure.

Key features

- DuoLamp increases the illuminated workspace
- Flexible arm directs light exactly where you need it
- 56 high quality bright LEDs ensure accurate colour matching
- Does not get hot, does not cure gel polish, does not dry brushes
- Touch-switch dimmer with 4 brightness levels

- Lamp brightness: 2,090 lux at 30cm (12")

A person wearing a bright blue long-sleeved shirt with intricate embroidery and denim shorts is sitting on a large, textured red suitcase. The background is a rustic brick wall. The scene is lit with warm, golden-hour light, creating a cozy and travel-oriented atmosphere.

PORTABLE LAMPS

OUR PORTABLE LAMPS ARE THE PERFECT TRAVEL COMPANIONS.

Lightweight, compact and foldable, you can take Daylight lamps with you wherever you go. And, because most models are USB compatible, they can be recharged on the move.

From travelling make-up artists to nail technicians, if you are working at a fashion show, supporting a wedding party or simply moving between salons, the Daylight Company is here for you.

IDEAL FOR:
MANICURES

Smart Travel lamp

DN1360

Portable, lightweight and foldable, the Smart Travel lamp can be taken anywhere.

Its internal battery is rechargeable via the provided USB cable.

The continuous dimmable daylight LEDs provide high contrast and accurate colour matching, making it easier and less tiring to concentrate, work and see details clearly.

Key features

- Lightweight and portable
- Continuous dimmer
- Rechargeable up to 10 hours of light
- Bright daylight LEDs provide true colour matching
- Internal rechargeable battery
- USB cable included
- USB power adapter available separately (D/E60001)

IDEAL FOR:
MANICURES

Freedom LED battery lamp

D/E35027

The Freedom battery LED lamp is truly portable, with a battery life of up to 6 hours. The daylight LEDs provide high contrast and accurate colour matching, making it easier and less tiring to read, work and see detail clearly. The LEDs are long lasting and never need replacing. The lamp has an integrated handle and is supplied with a rechargeable battery and AC adapter.

Key features

- Use your Daylight lamp anywhere
- Folding design with carrying handle
- Battery life of up to 6 hours
- Plug-in power supply included
- Daylight LEDs ensure accurate colour matching
- Lamp brightness: 1,400 lux at 30cm (12")

IDEAL FOR:
MANICURES

Smart Lamp D20

DN1327

The Smart Lamp D20 changes colour temperature from warm white to daylight to suit your preference throughout the day. The lamp is dimmable to 5 settings. It is lightweight and portable making it an ideal companion when travelling. The twistable shade allows you to direct the light where you need it.

Key features

- 3 colour temperatures: warm light (2,800-3,300°K), cool light (4,000-4,500°K) and daylight (5,000-5,500°K)
- Daylight LEDs provide true colour matching at 5,500°K setting
- 5 step dimmer controls the brightness level
- Easy twist shade directs light where it is required
- USB cable and power adapter included

Smart Lamp R10

DN1310

Full spectrum light for improved contrast. It is dimmable, allowing you to set the light at the brightness level you require. It is portable, lightweight and folds so you can take it anywhere. And it is USB compatible allowing you to plug it into the AC adapter, a computer or a phone charger.

Key features

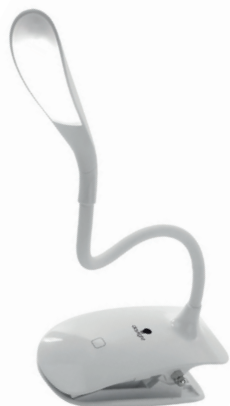

- Internal rechargeable battery - gives up to 4 hours of light
- Daylight LEDs with 3 brightness levels
- USB cable and power adapter included

IDEAL FOR:
MANICURES

Smart Clip-on lamp

DN1380

This lightweight, hands-free, clip-on LED lamp is the perfect companion for checking nail art. It can easily clip onto a book, table or laptop. The flexible arm directs the light where it is needed.

Key features

- Internal rechargeable battery - gives up to 4 hours of light
- Daylight LEDs with 3 brightness levels
- Reduces eye strain and improves contrast
- Lightweight, ideal travel companion
- USB cable included
- USB power adapter available separately (D/E60001)

YoYo Magnifier

DN1350

This compact foldable LED magnifier slips easily into a bag or pocket. The magnifier has 8 diopter (3X) lens and 3 bright daylight LEDs, perfect for nail design.

Key features

- Compact foldable pocket LED magnifier
- 3 bright LEDs
- 5.5cm (2.17") lens - 8D (3X) magnification
- Ideal to use when out and about
- Comes with a wrist strap
- Requires 3 x AAA batteries (not included)

A close-up photograph of a person's hair being styled with a curling iron. The hair is dark and is being curled into loose waves. The background is a soft, out-of-focus light blue. A purple rectangular box is overlaid on the left side of the image, containing white text.

BEAUTY LAMPS

IDEAL FOR WORKING IN COMFORT, OUR LAMPS HELP TO MAINTAIN HEALTHY EYES.

The high output, full spectrum light increases contrast and ensures accurate colour matching, which reduces eye strain and allows you to work in comfort for longer.

IDEAL FOR:
EYELASHES, FACIALS, MANICURES, PEDICURES

Nail Foil heat lamp

D/E31159

The 250W clear heat bulb ensures the fastest heating of nail foils for trendy nail art. Complete with a dimmer for exact adjustment to the required heat for all foil brands. The flexible 60cm arm makes accurate positioning easy. The grill prevents accidental contact with the bulb and the double-walled shade ensures that nail wraps are heated and not your customer. Simply the best lamp for heating nail foils from Minx, Blixz and other brands.

IDEAL FOR:
EYELASHES, FACIALS, MANICURES, PEDICURES

36W Professional UV lamp

D/E33170

This 36W UV lamp from Daylight is compatible with all quality UV gel systems and is the perfect complement to any professional salons. The nail box is equipped with four 9W UV tubes for fast and even curing, and an automatic timer with 3 settings: 90, 150 seconds and manual.

NailXpress LED lamp

D/E35180

The NailXpress LED lamp dramatically cuts the curing time. The modern touch-screen timer allows you to cure nails in 10 seconds, 30 seconds and 60 seconds. Slide your client's hand inside and the motion sensor immediately turns the lights on. Curing pauses immediately when the hand is withdrawn. Cleaning is easy with the removable magnetic reflector tray.
