

Ortopedens verktygslåda

Agnetha Folestad, Capio Lundby Närsjukhus,
“Prevention av fotkomplikation vid diabetes” 2016-01-28

Kirurgisk sårbehandling

- Revision
- Incision
- Excision
- Amputation

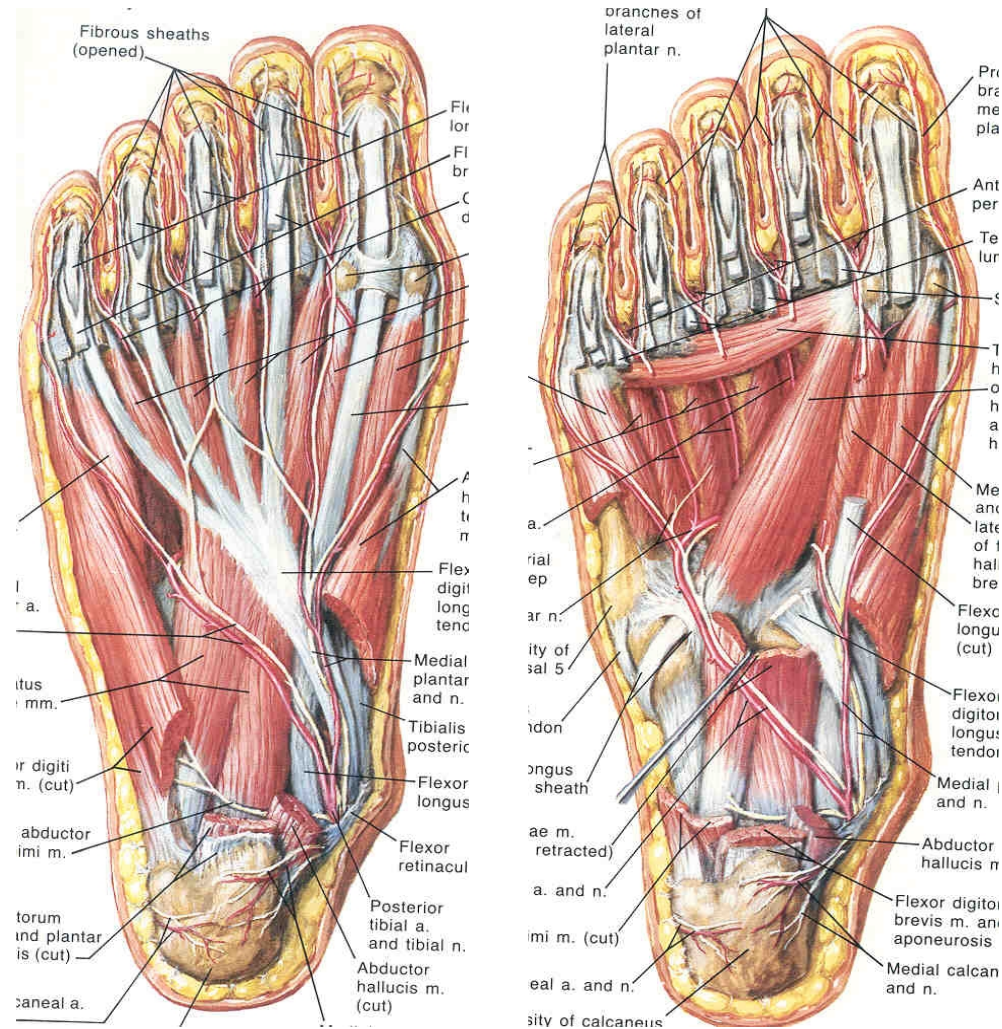

Infektion - Kirurgisk behandling

- Cellulit
- Abcess
- Osteomyelit

Neuropati – kontrakturer

Rekonstruktiv kirurgi

Klotår

- Flexortenotomi
- Pip-ledsarthrodes

Hallux valgus och övriga deformiteter

- "profylaktisk" op
- Achillestenotomi?

Osteoartropati - Charcot

- Rodnad
- Svullnad
- Värmeökning
- Neuropat
- Inga sår

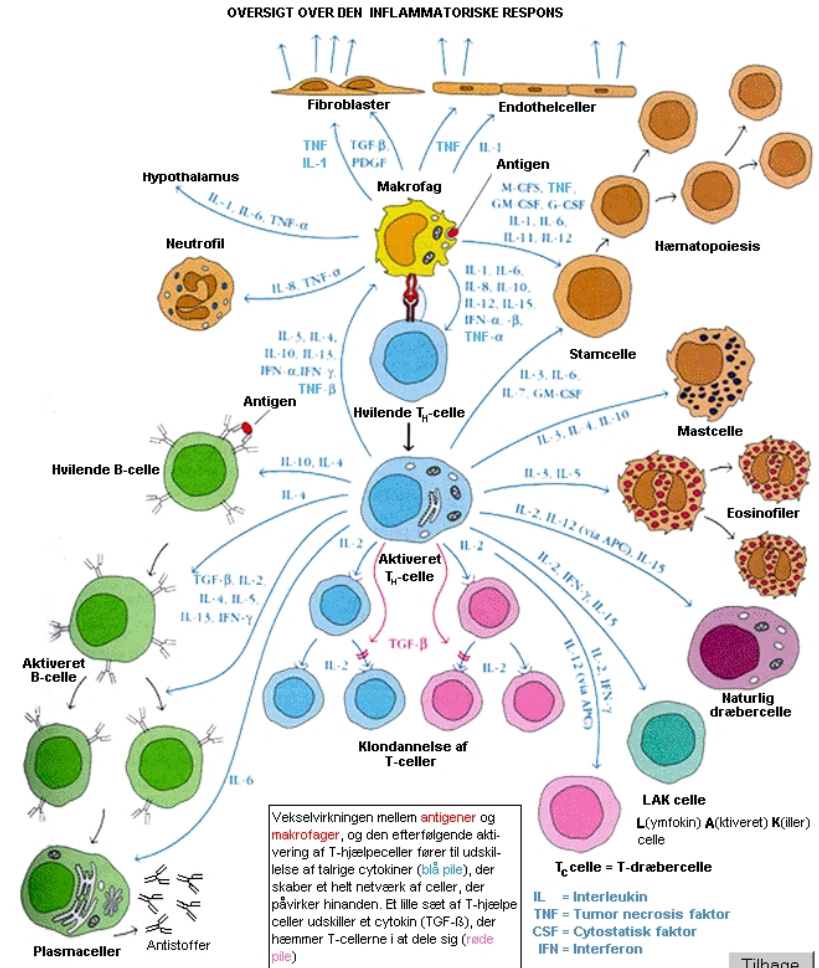

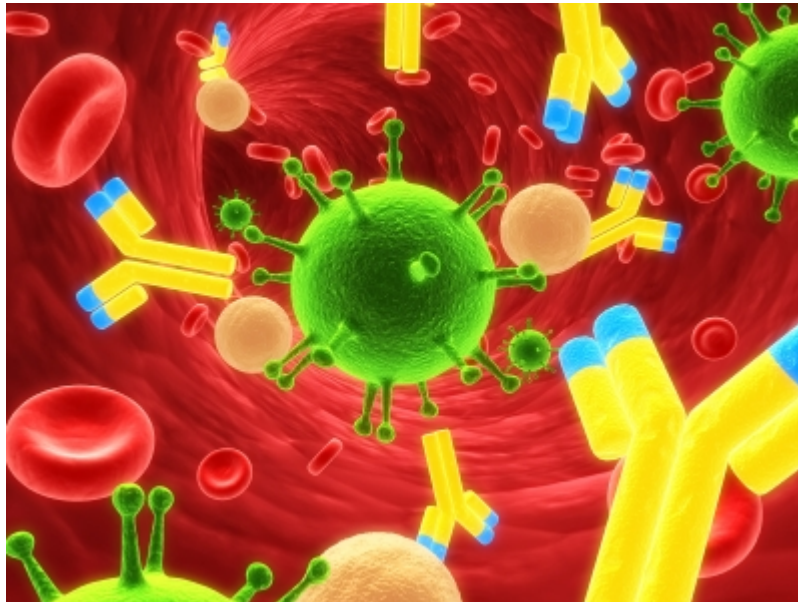

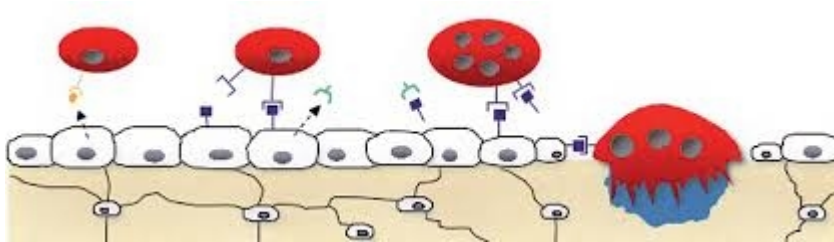

Osteoartropati - Charcot

Benomsättning - Inflammation

Tilbage

Behandling - Charcot

- Avlastning
- Gips
- Orthoser

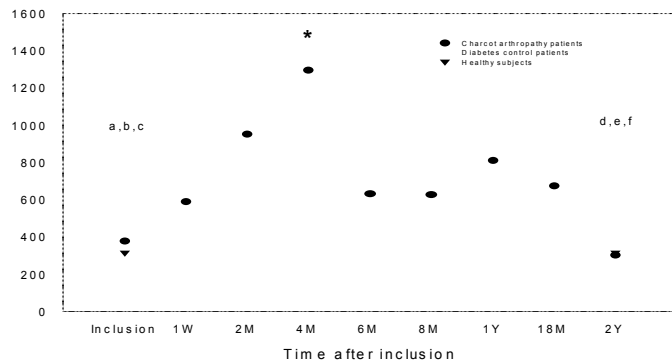

Benomsättning och inflammation

Biomarkörer, kroppens signalproteiner

Wnt ligand-1

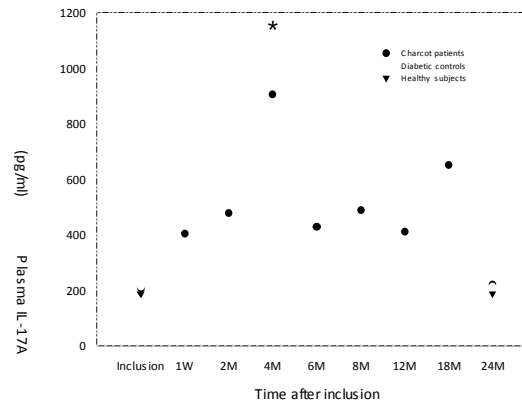

* $p=0.003$ Charcot 4 months vs Charcot inclusion

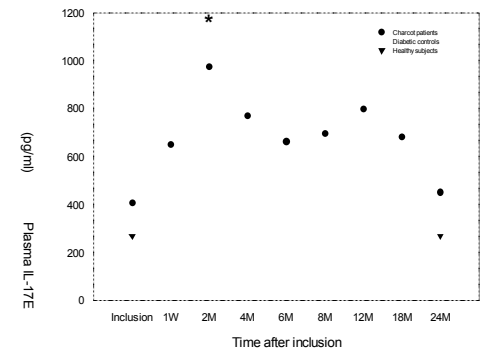

a $p=0.03$ Diabetic controls vs Charcot at inclusion
b $p=0.03$ Diabetic controls vs Healthy at inclusion
c NS Charcot vs Healthy at inclusion

d $p=0.007$ Diabetic controls vs Charcot at 2Y
e $p=0.02$ Diabetic controls vs Healthy at 2Y
f NS Charcot vs Healthy at 2Y

IL-17A

IL-17E

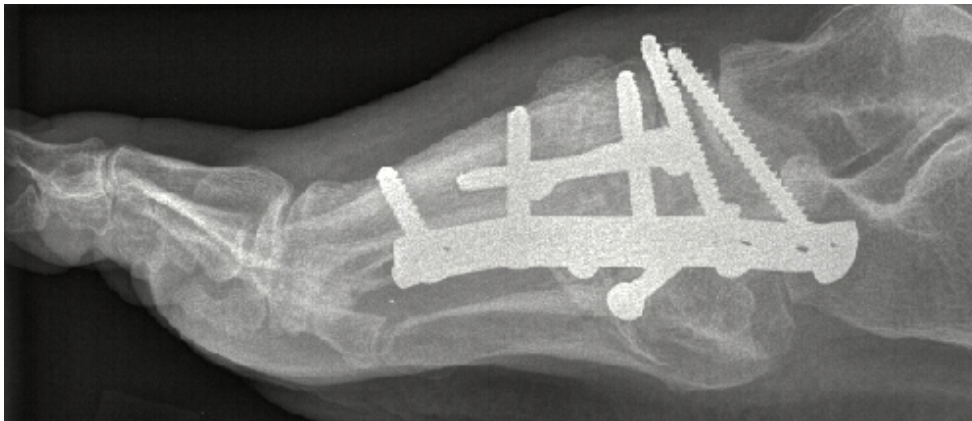

Kirurgi vid Charcotfot?

- Exostosavmejsling

- Rekonstruktion

Angiopati – Gangrän - Amputation
