aerosolised grease

Copper Ease

Product Features:

- An anti-seize assembly compound that is copper based.
- Protects metal parts against, seizure, corrosion, heat, rust, acid and water. Forms a dense protective coating over metal parts - will not wash or burn off. Extreme temperature tolerance (-40°C to +1150°C).

Direction for use:

- Shake can well before use.
- Apply directly to calipers and back of disc pad.

Handling:

- Caution pressurized container: protect from sunlight and other heat sources.
- Refer to Material Safety Data Sheet.

Shelf Life:

- 5 years from date of manufacture.
- Manufacture date can be identified from a five figure code printed on the bottle. The first three figures indicate the consecutive day of the year, the last two figures the year.
