Diesel D-TOX

Product Features:

- Harmful deposits gradually build up and clog up fuel injectors, seriously affecting the engine's performance.
- Diesel D-TOX is a highly concentrated heavy duty cleaner formulated to rapidly remove these deposits whilst acting as a powerful cleaner throughout the whole system.
- Suitable for all diesels including TDI, CDI and HDI types.
- Restores lost power and acceleration by removing harmful deposits that build up over time.
- Cleans diesel injectors fast.
- Suitable for use in light and heavy duty diesels.
- Can be used in common rail fuel injector systems.
- Suitable for all diesel engines including turbo charged.
- 400ml is sufficient to treat 60 litres of diesel fuel.
- Works while you drive.
- Ideal for use with ultra-low sulphur diesel fuel.

Directions for use:

- Pour entire contents into fuel tank prior to refuelling.
- Placement of Diesel D-Tox directly into the fuel filter is not recommended.
- For ongoing protection use Comma Diesel Magic.

Handling:

- Avoid extremes of temperature.
- Product in cardboard cartons must be stored under cover and away from damp conditions.

Shelf Life:

- 5 years from date of manufacture.
