

5 February 2020

Dear BYC holder,

I am honoured that you chose to put your trust in a coin that comes from our shared experiences and disappointment with what has gone wrong in the past.

We're here because we are crypto enthusiasts. Nobody has done this successfully in the past and I value the trust you have placed in me.

You may notice some changes in the back end over the coming days to a week.

Your interests are my interests. If I notice anything unusual or am unhappy with something, I have a legal duty to report it, as do you. As I have a suspicion that my coin has been mis-sold or represented through a thoroughly improper manner apparently, I have to act. This has been a great disappointment and personal tragedy. I am forced to act.

After a thorough independent diagnostic, it appears that the platform too does not meet what was promised. This was reviewed independently. I can do better for you so I am going to.

I am available to answer any queries on [delta2@protonmail.com](mailto:delta2@protonmail.com).

Regards,

Duncan Arthur
