Safe4 Disinfectant Effective Against Coronavirus at 1:50 Dilution Rate

February 1, 2020 by [Safe4](#)

Safe4 Disinfectant has a verified pass for both Feline and Human Coronavirus.

[BluTest](#), internationally recognised experts in virus testing has said that the minimum requirement for a claim is a pass to EN 14476:2013 + A2 2019 or against vaccinia virus (EN 14675 at less than 5 minutes for surface products).

This covers all enveloped viruses including all coronaviruses.

Here you can download the data for our pass result for [Feline Corona Virus and Human Corona Virus \(covered by Vaccinia\)](#).

All our other detailed test results can all be downloaded [here](#)
