Organic Cotton

At Bobo Choses we strive to make sure all our products are kind to the environment. This garment was made with eco friendly certified organic cotton. The cotton used to produce this was grown without the use of pesticides, herbicides or any other chemical fertilizer. The sustainable production system also helps to replenish and maintain soil fertility.

Denim

At bobo Choses we love what is unique and special. Please keep in mind that due to the nature of this fabric, the dyes used to achieve the depth of colour may transfer onto other garments and upholstery. We recommend you to wash this garment separately, inside out. It will eventually soften and fade, acquiring a nice vintage look! Always follow care label instructions and wash before first use. Have fun!

UV Protection

While we love playing outdoors on sunny days, protection from the sun is a priority. Our swimwear is ready for water play! It is soft, lightweight and provides UPF 50 protection against harmful UV rays. We recommend you to follow care label instructions and to wash before first use. Have fun!
