STRAITS TRADING FLORAL COLLECTION

Exquisitely Detailed Florals

A flower shop like no other. Our picture-perfect florals are intricately detailed and finished to the highest standard. It's with good reason that this collection of high-quality faux flowers is an unrivalled customer favourite.

Grass Floral Bundles

A free-standing floral display with a woven tie at the base.

What make the Straits Grass Floral Bundles extra special is the fullness of the foliage. The utmost care is taken in their craft to ensure the sweeping arrangement of the flowers resembles that of a live floristry display.

Attention to detail in the blooms, the addition of thoughtfully placed green leaves, and sprigs of dainty blossoms complete the look.

All of the Grass Floral Bundles sit perfectly in our sweet ceramic pot.

Floral Bouquets

Designed for display in a vase, our Floral Bouquets are packed full of vibrant flowers and lush greens. The intricate details really show the quality of these flowers. From perfect, pink rosebuds nestled next to their blooming counterparts to eucalyptus style leaves and even tiny berries.

These flowers would be as at home as a bridal bouquet as they would as a table centrepiece.

Pictured here in our lustre vases - available in two sizes.

Vibrant Additions to Every Home
