

# The Fixer's Manifesto

from the makers of Sugru, version 2.0

If it's broken,  
fix it!

And if it doesn't  
exist, make it.

If it's not broken,  
improve it.

Give your stuff  
a longer life.

Disposability  
is a choice.

Resist needless trends  
and upgrades.

Embrace the stuff  
we already have.

A fixed thing  
is a beautiful thing.

Nurture curiosity.

Share  
your ideas.

Fixing **is good.**
