

CONGRATULATIONS GOBO TEXT

The word 'Congratulations' is drawn onto the screen, and then your text is revealed underneath. This design is intended to be customised with one or two people's names. Particles are then emitted from behind the names.

This animation has been designed to work as a 'gobo' - it can be neatly projected onto walls (as pictured) or floors as the design doesn't extend beyond the edges.

For best colour matching, these samples should be viewed on a monitor and not as a print-out. Printed colours are very different to colours displayed on video screens.

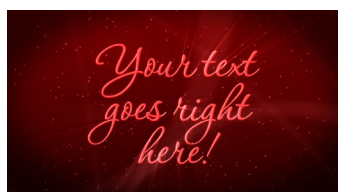

PLEASE NOTE: Colours may be reproduced slightly differently depending on the type of video display you use and the way it's set up. If you are viewing on an LCD screen, make sure you are viewing the screen head-on for best colour accuracy.

ELEGANT TEXT

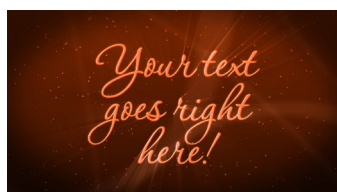

Your text is gently revealed, starting blurred and then coming into focus, drawn in a beautiful script font.

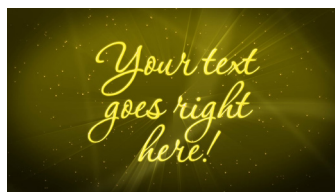

A subtle background with animated curves and floating particles completes this tasteful animation which is perfect for weddings and any other event where a classy and sophisticated look is required.

For best colour matching, these samples should be viewed on a monitor and not as a print-out. Printed colours are very different to colours displayed on video screens.

PLEASE NOTE: Colours may be reproduced slightly differently depending on the type of video display you use and the way it's set up. If you are viewing on an LCD screen, make sure you are viewing the screen head-on for best colour accuracy.

FLORAL WATERCOLOUR

Your text gradually appears, line by line, in a hand-painted watercolour calligraphy style. Painted flowers surround the text, and butterflies flutter around the text.

At the end of the animation the text gradually disappears.

Designed for use at wedding receptions.

CORNFLOWER BLUE

For best colour matching, these samples should be viewed on a monitor and not as a print-out. Printed colours are very different to colours displayed on video screens.

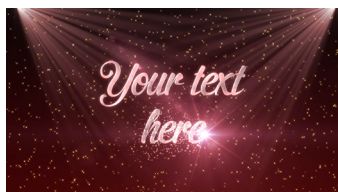

PLEASE NOTE: Colours may be reproduced slightly differently depending on the type of video display you use and the way it's set up. If you are viewing on an LCD screen, make sure you are viewing the screen head-on for best colour accuracy.

LIGHT-UP LETTERS

This design was created to mimic the light-up letters that are popular at wedding receptions.

It is designed to display a wedding couple's initials, and due to the nature of the design can only accept 6 letters maximum. Only capital letters, numbers, and a small selection of symbols (&, #, and £) are available.

Available in a colour changing version which gradually rolls through all of the colours below, or as individual static colours.
