If you are looking for a sustainable, measurable and fully evaluated intervention programme to support your learners and help close the attainment gap, MIND THE GAP! may be just what you are looking for!

‘Mind the Gap!’ has been designed to help support the development of key skills such as self-regulation, resilience, growth mindset and presentation skills.

Over 4-6 interventions, pupils will have a learning experience like no other, leaving them feeling empowered and ready to take on whatever life may throw at them!

"... See a child, see a young person, not a label. We can help them to believe in themselves, believe in a better future, help them to be the best version of themselves, maximise the potential of children and the gifts they have inside, get the most out of their lives now and in the future – these are the values that are at the core of what Tree of Knowledge does and that’s why we want to work with TōK."

Audrey May, Head of Service/Chief Education Officer, Dundee City Council
**OUR WHY**

Our vision is simple... 
**Inspire the World.**

In partnership with you, our unrivalled passion for making a difference allows us to entertain, enlighten and educate your people, delivering a learning experience they’ll never forget.

**OUR HOW**

With our core values of Passion, Learning, Innovation, Fun and Excellence at the heart of all we do, we passionately believe in the tangible benefits and lifelong impact of first class inspirational training. We work hard to support young people in their learning, raise attainment and close the gap.

**OUR SPEAKERS**

From primary school teachers to magicians and from physicists to psychologists, we have a truly inspiring team of speakers. None of us have laser vision, superhuman strength or the ability to fly but what we do have is the imagination, relentless energy and a burning desire to inspire the world – one course at a time.

**STAFF COURSES**

**Fun@Work**
Boost staff morale, increase collaboration and handle stress more effectively.

**Engage for Excellence**
Explore the impact of positive emotions, engagement, relationships, meaning and accomplishments of your performance and just what it takes to flourish.

**Let it Go**
Increase your emotional intelligence, explore your values and learn to manage your inner chimp.

**PARENTAL ENGAGEMENT**

In line with the parental engagement agenda we have a range of courses to help schools engage parents and support their children. These complement our staff courses allowing for a consistent message to be shared across the whole school community.

Parental courses are available on the first evening of two consecutive training days in your school.

**DONT’T TAKE OUR WORD FOR IT**

How does TOK help schools strive for excellence?

The TOK team are so in tune with current developments in education and are able to work with us in creative and new ways to support what we are working on in schools. This could be to work with the staff and pupils to create or refresh our school vision & values, working with pupils to develop their skill set or it could be to work with senior pupils in preparation for the transition to Secondary.

We have used TOK to deliver CPD training with staff, which supported us in bringing staff together, working towards a shared goal.

Fiona Shearer, Education Quality Improvement Manager, Highland Council

How would you best describe our workshops?

It’s delivered in such a fun and engaging way that the children can’t help but take away that golden nugget at the end of it. At the heart of it, it’s good fun but it’s got a really scientific based core that the children can then develop the skills from. They’re inspiring.

Lesley McPhee, Headteacher at Eastfield Primary School and Nursery Class
