The Standard Catalogue to the Gold Sovereign Series

£45.00

+p&p

The first revised edition of the Token Publishing Ltd imprint of Michael Marsh's *The Gold Sovereign* was published in 2017 to coincide with the 200th anniversary year of the famous coin. Since then this book, fully revised and updated by Steve Hill of Sovereign Rarities (formerly of Spink and Baldwins), has become the reference work on five sovereign two sovereign, sovereign, half sovereign and quarter sovereign.

This THIRD revised 340-page publication, updated by Steve Hill and published in August 2024, includes all new sovereigns and fractionals issued since the second edition was produced—PLUS, for the very first time, we have gone all the way back to where it began and include the sovereigns of Henry VII, the half sovereigns of Henry VIII, and on up to the reign of James I. Now not only are all the post-1816 sovereigns, half sovereigns, quarter sovereigns, fives and double sovereigns included in the book, but so too are the hammered coins, making this the absolute go-to reference work, the *standard catalogue*, for this most fascinating of coin series. All are featured in one hardbound, profusely illustrated volume, making this the absolutely definitive work on this iconic series. Once again an accompanying price and rarity guide is included.

A Guide to the Guinea 1663 to 1813

Token
TITLE

From the publishers of the acclaimed *The Gold Sovereign Series*, comes a sister publication, *A Guide to the Guinea—1663–1813*. This definitive guide to one of the country's most fascinating gold coins is the life work of collector and acknowledged authority on the guinea, Roderick Farey. Bringing together never before seen information, facts, figures and fabulous illustrations, this important title is set to become the standard reference work on the subject. Covering the history of the guinea from its beginnings in the reign of the newly restored monarch Charles II to its demise as a circulating coin and subsequent replacement by the modern gold sovereign in the time of George III, this book provides all you need to know about the "golden guinea" and all its varieties. An eight page, separate Price Guide to the guinea is also included with the book.

Coins of England & The United Kingdom

Coins of England needs little introduction to most numismatists. It has become the standard reference work for United Kingdom coins since it was first published by Seaby many years ago. Where the COIN YEARBOOK is a handy guide to the most commonly encountered coins and an ideal quick reference, *Coins of England* is a far more in depth publication covering die varieties, types, etc. Now split into two volumes the book covers all English coins up until decimalisation in the main book, with all coins produced since the UK went decimal covered in the smaller volume. Both books are now hardback.

Coins of Scotland, Ireland and the Islands including Anglo-Gallic Coins

Fifth Edition

The historic reference work for coins from Scotland, Ireland and the Islands of Jersey, Guernsey, Isle of Man and Lundy, as well as those from the Anglo-Gallic series, is the only catalogue featuring all major coin types from the Hiberno-Scandinavian periods in Ireland and the Isle of Man, through to the final Anglo-Gallic coins seen under Henry VI, the Scottish "Pretenders" James VIII and Charles III, as well as the Irish Euro coinage seen from 2002 onwards, arranged in chronological order within the respective realms and divided, within each reign, into metals, coinages, denominations and varieties.

The catalogue includes useful information explaining numismatic terms and the process of valuing coins, as well as providing independently agreed, up-to-date values for each and every coin. Also included is a wealth of further reading in bibliographies, for the ardent intellectual collector!

Volume II **£50** +p&p

Vol. I

Vol. II

Chinese Numismatics

This is the first book to explore the history of the field of Chinese numismatics from both Eastern and Western perspectives. Consisting of four papers that complement each other beautifully, it gives a sound introduction to the study of Chinese numismatics, focusing on the 19th century and, crucially, how to think about Chinese money. Hardback, with colour illustrations throughout.

British Celtic Coins: Art or Imitation?

This book looks at Celtic coins in a whole new way—are they works of art in their own right? Did they copy the Greeks? If they did, how much knowledge did they have of Greek coins and where did that knowledge come from? What is the true story of coinage in pre-Roman Britain? Now's your chance to find out!

The Story of the Coins and Tokens of the British World

This full colour profusely illustrated 380-page book tells the story of the coins and tokens used by the British to trade across the globe, from the very earliest trade in the 15th century through to the final days of the colonies. It examines the coins of The East India Company, the tokens of private individuals, the coins which are commonly referred to as “colonial coins” and the coins of the Commonwealth—stretching from the Americas to Asia and all points in between.

Tokens & Tallies—Through the Ages; Tokens & Tallies—1850–1950; Tokens & Tallies—Roman to Victorian.

Three books that are proving perennially popular both amongst token collectors and those interested in learning more about this fascinating branch of numismatics

The first volume (green) concentrates mainly on metal objects for which there is some historical or archaeological evidence that they served either as substitutes for legal money, or as a means of recording payments and services due.

The Second volume (red) looks at the designs of the small pieces of brass, copper, lead, plastic or embossed card used in places from public houses to chapels in the 19th and early 20th centuries.

The third volume (blue) tells the stories of those items which are often found by metal detectorists and the photographs show several hundred images of leaden tokens and tallies from every age. Paperback.

The Naval Meritorious Distinguished Medal

£40.00
+p&p

The Naval Meritorious Service Medal is an account of the development of the medal which largely replaced the Distinguished Service Medal from 1918 as an award for acts of gallantry not under enemy fire, as well as providing an appropriate award to recognise the many men who provided long and meritorious service. This medal has previously remained largely unresearched but this account draws together the surviving recommendations for these awards, including an analysis of the campaigns for which the awards were made, as well as detailing the Army and Royal Air Force Meritorious Service Medal awards made to Naval personnel providing a definitive history of these awards.

The Distinguished Service Medal

£60.00
+p&p

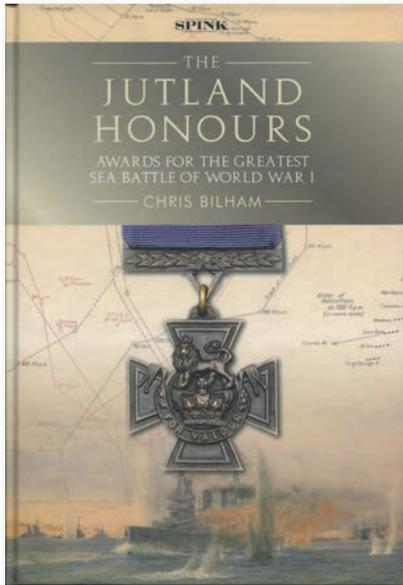

This is a superb book on the first 25 years of the Distinguished Service Medal. It looks at the history of the award from its inception at the start of World War I right up to the start of World War II. The 800-plus page hardback book covers naming styles, research, medal presentations, recommendations and gives an analysis of the awards, and a full nominal roll for all those awarded it—including foreign nationals. It is an exceptional book that is essential for any Naval gallantry collector.

The Recipients of the Medal of the British Empire
ISBN: 978 1 908828 45 3 (1917-2019)

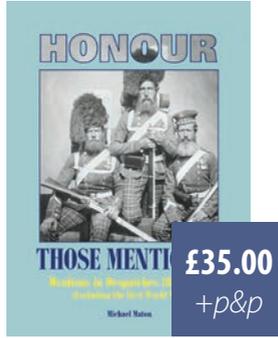

Michael Maton's "Honour" range of books has transformed the way we collect medals and research their recipients. Simple to use alphabetical listings of honours, awards and Mentions in Despatches instantly give name, rank, number, unit/ship served with, type of award, the theatre of war/reason for award and the *London Gazette* date and page number for further research. Covering all British and Dominion forces these books cover from 1854 right up until 1945. There are also books dedicated to civilian awards in World War II, the Recipients of Foreign Awards (1914-68) and the recipients of the British Empire Medal. Forgotten Heroes—
The Charge of the Light Brigade

£39.99

+p&p

This book really is a masterpiece and an absolute must-have for anyone interested in the Crimea or this famous action, which has gone into the annals of military folklore. It is absolutely chock-full of information about the Charge and, most importantly, the Chargers themselves. Of particular interest to the collector is information on full medal and clasp entitlement and even when the medals last came up for sale and how much they sold for. Chargers are listed by Regiment and alphabetically.

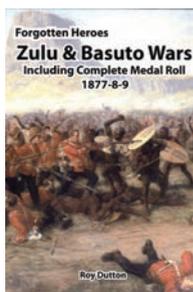

Forgotten Heroes—
The Charge of the Heavy Brigade

£29.99

+p&p

Like its sister publication on the Light Brigade, this book really is a masterpiece and an absolute must-have for anyone interested in the Crimea or this famous action. As with *Forgotten Heroes, The Light Brigade*, it's absolutely full of information about the Charge and the Chargers—including photograph, date of birth and date of death, medal and clasp entitlement (even when the medals last came up for sale and how much they sold for)—and all importantly, whether the man rode in the Charge or not! Chargers listed by Regiment and alphabetically along with information about the charge itself.

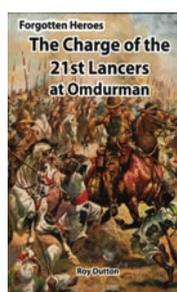

Forgotten Heroes—
The Zulu & Basuto Wars

£39.99

+p&p

The latest in the series from Roy Dutton, author of the *Forgotten Heroes* books on the Charges of the Light and Heavy Brigades at Balaklava, this excellent publication looks at the campaigns in South Africa in 1877–79. Included, of course, are the best-known of the battles of the Zulu Wars of 1879—Isandhlwana and Rorke's Drift. Also included, is the complete medal roll for the South Africa Medal 1877–79 and its clasps.

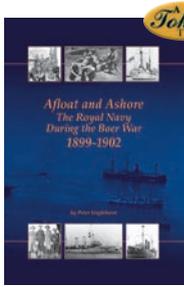

Forgotten Heroes—
The Charge of the 21st Lancers at Omdurman

£35.00

+p&p

In this publication, Roy Dutton follows his excellent works on those other famous Charges—those by the Heavy Brigade and the Light Brigade during the Crimean War—by providing us with both a full medal roll for Lancers who received the Queen's and Khedive's Sudan Medals and some fascinating biographical details of the men who took part with a plethora of photographs and a full history of the Lancers.

New for 2026!

Token Publishing Ltd. is pleased to be able to offer a range of titles from well-known military history publishers Pen & Sword (and their imprints). Over the coming months, we will be showcasing a number of their works, concentrating first and foremost on medals, of course. Check out MEDAL NEWS or www.tokenpublishing.com for what's new. We are starting off with five books all related to the Victoria Cross.

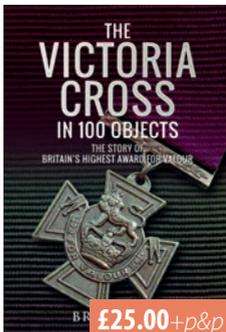

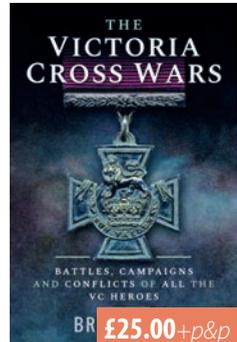

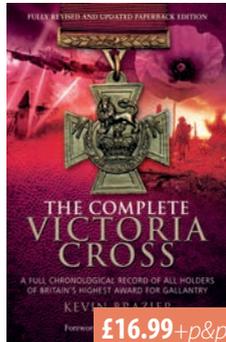

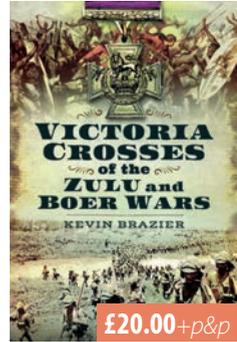

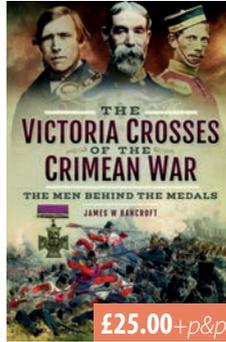

The Victoria Crosses of the Crimean War (James Bancroft): focusing on the first 111 awards of the Victoria Cross during the Crimean War.

Victoria Crosses of the Zulu and Boer War (Kevin Brazier): a complete chronological record of the Victoria Crosses awarded to British and Commonwealth soldiers during the Anglo-Zulu and Boer wars.

The Complete Victoria Cross (Kevin Brazier): the fully updated and revised paperback edition (revised 2025) giving a full, chronological record of all holders of the VC.

The Victoria Cross Wars (Brian Best): a look at the battles, conflicts and campaigns of all VC heroes.

The Victoria Cross in 100 Objects (Brian Best): In this highly-illustrated work, the renowned Victoria Cross historian and author Brian Best examines the introduction and evolution of the VC, along with some of the fascinating individuals and remarkable acts of valour associated with it, through an intriguing collection of 100 objects.
