Coins of England & The United Kingdom

Coins of England needs little introduction to most numismatists. It has become the standard reference work for United Kingdom coins since it was first published by Seaby many years ago. Where the COIN YEARBOOK is a handy guide to the most commonly encountered coins and an ideal quick reference, *Coins of England* is a far more in depth publication covering die varieties, types etc. Now split into two volumes the book now covers all English and United Kingdom coins up until decimalisation in the main, hardcover, book with all coins produced since the UK went decimal covered in the smaller paperback volume.

Prices:

Pre-decimal issues £30 (+p&p—see main order form on page 32)

Decimal issues £9.99 (+p&p—see main order form on page 32)

History of coinage

IN THE MONEY: A guide to the coins that shaped Britain

Numismatic books usually fall in to one of two categories—either they are general price guides or they are more specific, books that concentrate on one coin or maybe one type of coin/historical period. This new book *In the Money* by Dominic Chorney of Baldwin's, breaks that pattern and instead looks at a number of coins from across history; quite literally the “coins that shaped Britain”. Starting with the Celtic gold stater and on to the Roman Britannia, the hammered penny, the sovereign and the decimal pound coin, Dominic looks at how these coins came into being, the political, historical economic and social background to their institution and the influence they had on the wider world. Whilst this isn't a book that will impart much new knowledge to specialist collectors it is one that will be of interest to all—and serves to give an excellent background into why coins are important and how they came to be so. It is well worth a read!

Price £12.99 (+p&p—see main order form on page 32)

Objects of War

by Dr Kevin Clancy, Curator of the Royal Mint Museum

Numismatically coins and medals share a heritage but it isn't often that the two worlds overlap—apart from occasionally at coin fairs and, of course in the Token Publishing offices! In this new book by Dr Kevin Clancy, Curator of the Royal Mint Museum, however, the connection between war and money is thrown into sharp relief. *Objects of War*, subtitled *Currency in a Time of Conflict*, looks at the role of money, both coins and banknotes, in relation to war—whether that is financing warfare, the changing face of a currency in wartime (think the replacement of sovereigns with banknotes in World War II and the changing colours of the £1 note in World War II), images of war and warriors on currency, coins saving lives on the battlefield or the use of money as propaganda Dr Clancy has covered it all. Profusely illustrated in full colour throughout, with some stunning pieces from the museum itself, this is a fascinating look at money in relation to warfare and will be of great interest to readers of COIN NEWS and MEDAL NEWS alike!

Some Spanish Pottery

Beautiful Spanish lustreware chargers, bowls and dishes, (known as Hispano-Moresque), were manufactured from the 16th to the 19th century and were often bought back from the Grand Tour. They can now be seen in museums and stately homes across the land but, whilst they are highly collected, there is precious little literature on the subject. This new limited edition book, detailing the author's own collection built up since the early 1960s, will prove an invaluable guide to help the expert or the inquisitive alike. Lavishly illustrated throughout, this hard-back large A3 reference work gives a full description of, and information on, each piece, including an insight into how they were made thus ensuring this is both a beautiful "coffee table" book that you would be proud to own and an invaluable guide to a hitherto under-explored area of ceramics. The Tribes & Coins of Celtic Britain

HONOUR THE RECIPIENTS OF THE MEDAL OF THE ORDER OF THE BRITISH EMPIRE

1917-2019

In this, the last book in an incredible series, Michael now turns his attention to the Medal of the Order of the British Empire (in all its forms) which celebrated its centenary in 2017. Encompassing an astonishing 67,000 plus awards this book is both a tribute to all those awarded the medal in the past 100 years and a fitting testament to Michael's tireless efforts to Honour as many brave men and women as possible through his excellent endeavours over the past three decades.

Honours and Awards 1854-1914 & 1920-1939

Michael Maton's penultimate books in the "Honour" series concentrate on two historical periods. The 60 years from the Crimean War in 1854 until the outbreak of the next major European conflict in 1914 and then the period of relative peace in Europe from 1920 until the outbreak of the Second World War in 1939. During these two time periods British and Dominion Forces were engaged across the world, first building then defending the Empire on which the sun never set. Prior to World War I British and Empire Forces saw action in Russia, Canada, China, New Zealand, Africa, India and all points in between. After 1920 Africa and India became the main focus of attention until 1939 when Europe was again thrown into chaos. This volume looks at the Honours and Awards bestowed on the soldiers, sailors and, later, airmen who fought for Queen (and Kings) and country to help ensure that Britain's influence spanned the globe, influence that is still very much in evidence across the world today.

Honour those Mentioned 1854-1939 (excl.WWI)

This volume from Michael Maton is sure to prove one of the most popular yet, covering as it does all the Gazetted MENTIONS IN DESPATCHES from 1854 -1939 (Excluding World War I as they are available separately). Now for the very first time there is an easy reference work covering all MiDs from the Crimea on to the Interwar Years. This will prove an exceptionally useful book, particularly for those interested in Victorian Campaigns as, of course, before World War I there was no emblem to be worn on a medal ribbon available.

The book includes information on the recipient's name, number, rank, the Force/Unit he served with as well as the theatre of war for which he received the "mention". Also included is the London Gazette date and page reference enabling further research.

This is the perfect companion to Honours and Awards 1854-1914 & 1920-1939.

Heroes of the Albert Medal & More Heroes of the Albert Medal

Softbacks

The Albert Medal was instituted by Royal Warrant on March 7, 1866, as an award for gallantry shown in saving, or attempting to save, life at sea. Ten years later, a new Royal Warrant created the Albert Medal for Saving Life on Land. The medal quickly became regarded as the premier award for gallantry "not in the face of the enemy"; in fact, the civilian equivalent of the Victoria Cross. The award could also be made to servicemen and women who performed acts of gallantry in the course of their daily lives, both in wartime and in times of peace. These recipients were featured in "Heroes of the Albert Medal". "More Heroes of the Albert Medal" concentrates on the many civilian recipients of this rare and hard-won award who did not survive to become holders of the George Cross in October, 1971.

British Gallantry Awards

This handy (hardback) pocket guide to British Gallantry Awards, by well-respected medal specialist Peter Duckers, is exactly what it says it is—and whilst it won't necessarily give you any new information if you are a dedicated gallantry collector, it is certainly a very useful book to refer to. It's well written and well-illustrated and there's sure to be something in there that's of interest—especially if you're not a gallantry specialist but would like to know more about the subject.
