Objectives and Investment Policy

- The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund’s assets, which reflects the return of the Bloomberg Barclays EUR FRN Corporate 2% Issuer Cap Bond Index, the Fund’s benchmark index (Index).
- The Share Class, via the Fund is passively managed, and aims to invest so far as possible and practicable in the fixed income (FI) securities (such as bonds) that make up the Index and comply with its credit rating requirements. If the credit ratings of the FI securities are downgraded, the Fund may continue to hold these until they cease to form part of the Index and it is practicable to sell the position.
- The Index measures the performance of globally issued, Euro denominated FI securities issued globally by corporate issuers that pay income according to a floating rate of interest.
- The Index includes only FI securities that: (i) are rated investment grade, taking the middle rating given by Fitch, Moody’s and Standard & Poor’s Ratings Services; (ii) have at least €300 million outstanding per individual bond; and (iii) have a remaining maturity (i.e. the time from issue until they become due for repayment) of greater than or equal to one month. Securitised products (i.e. financial assets that are pooled together in order to create tradable securities) and Euro denominated bonds issued by agencies, sovereigns, supranationals and treasuries are excluded from the Index. Issuer exposure is capped at 2%.
- The Fund uses optimising techniques to achieve a similar return to its Index. These may include the strategic selection of certain securities that make up the Index or other FI securities which provide similar performance to certain constituent securities. These may also include the use of financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets). FDIs may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.
- The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
- Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- Your shares will be distributing shares (i.e. income will be paid on the shares semi-annually).
- Your shares will be denominated in Euro, the Fund’s base currency.
- The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.

  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
  - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
  - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.
