Objectives and Investment Policy

- The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Funds’ assets, which reflects the return of the MSCI Europe ESG Screened Index, the Fund’s benchmark index (Index).
- The Share Class, via the Fund is passively managed, and aims to invest in equity securities (e.g. shares) that, so far as possible and practicable, that make up the Index.
- The Index measures the performance of a sub-set of equity securities which are part of the MSCI Europe Index (the “Parent Index”) which excludes companies from the Parent Index based on the index provider’s environmental, social and governance (“ESG”) exclusionary criteria.
- The Index excludes companies from the Parent Index which are defined by the index provider as: being associated with controversial and nuclear weapons; producing tobacco or civilian firearms; or deriving their revenues from the following activities: (i) thermal coal; (ii) tobacco; (iii) civilian firearms; or (iv) oil sand. Companies that are classified as violating United Nations Global Compact principles are also excluded from the Index. The remaining securities are then weighted by their free-flow adjusted market capitalisation. Free float means that only shares available to international investors rather than all of a company’s issued shares are used in calculating the benchmark Index. Free float-adjusted market capitalisation is the share price of the company multiplied by the number of shares available to international investors. Securities that are liquid means that they can be easily bought or sold in the market in normal market conditions.
- The Investment Manager will take into account the above ESG criteria only when selecting the securities to be held directly by the Fund. The use of FDIs which may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.

Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.

- Your shares will be accumulating shares (i.e. income will be included in their value).
- Your shares will be denominated in Euro, the Fund’s base currency.
- The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.

For more information on the Fund, Share Class, risks and charges, please see the Fund’s prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- The benchmark index only excludes companies engaging in certain activities inconsistent with ESG criteria if such activities exceed the thresholds determined by the index provider. Investors should therefore make a personal ethical assessment of the benchmark index’s ESG screening prior to investing in the Fund. Such ESG screening may adversely affect the value of the Fund’s investments compared to a fund without such screening.
- Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
  - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due. If a financial institution is unable to meet its financial obligations, its financial assets may be subject to a write down in value or converted (i.e. “bail-in”) by relevant authorities to rescue the institution.

The benchmark is the intellectual property of the index provider. The Share Class is not sponsored or endorsed by the index provider. Please refer to the Fund’s prospectus for full disclaimer.
Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund’s prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

**To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
