Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

UBS ETF - MSCI EMU UCITS ETF, class (EUR) A-dis (ISIN: LU0147308422)
a sub-fund of UBS ETF SICAV
This fund is managed by UBS Fund Management (Luxembourg) S.A., a part of UBS AG.

Objectives and investment policy

The UBS ETF - MSCI EMU UCITS ETF sub-fund is passively managed and will take proportionate exposure on the components of the MSCI EMU Index (Net Return) either through direct investments in all or substantially all of the component titles alone and/or through the use of derivatives in particular where it may not be possible or practicable to replicate the index through direct investments or in order to generate efficiencies in gaining exposure to the index. There may also be instances where a sub-fund holds securities which are not comprised in its index if the portfolio manager of respective sub-fund believes this to be appropriate considering the sub-fund’s investment objective and the investment restrictions or other factors.

Exposure to the index through direct replication may be affected by rebalancing costs, while exposure to the index through derivatives may be affected by derivative trading costs. The use of OTC derivatives further engenders counterparty risk which is however mitigated by UBS ETF SICAV’s collateral policy.

- The sub-fund will invest its net assets predominantly in shares, transferable securities, money market instruments, units of undertakings for collective investment, deposits with credit institutions, structured notes listed or dealt in on a regulated market and other assets eligible under the prospectus.
- Currency hedged share classes may also be available in the sub-fund.
- The sub-fund may enter into securities lending transactions.

Investors other than Authorized Participants may not subscribe shares directly with the UBS ETF SICAV, but may purchase and sell shares, through an intermediary, on one of the stock exchanges listed for the share class on the website www.ubs.com/etf. Direct redemptions with the UBS ETF SICAV are however possible on each business day in Luxembourg. Authorized Participants may subscribe and redeem shares with the UBS ETF SICAV under the conditions detailed in the relevant Authorized Participant Agreement.

Risk and reward profile

The benchmark is the intellectual property of the index provider. The Share Class is not sponsored or endorsed by the index provider. Please refer to the Fund’s prospectus for full disclaimer.
Charges

The charges you pay are used to pay the costs of running the sub-fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest¹

<table>
<thead>
<tr>

<tbody>
<tr>
<td>Performance fee</td>
<td>none</td>
</tr>
</tbody>
</table>

¹ This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.
² Investors who deal on secondary markets will pay fees as charged by their stock brokers. These fees are publicly available on exchanges on which the shares are listed and traded and may also be obtained from the relevant stock brokers. Transaction costs related to dealing directly with the Company will be payable by authorized participants.

The ongoing charges figure is based on expenses for the year ending 2019. This figure may vary from year to year. It generally excludes:
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the sub-fund when buying or selling units in another collective investment undertaking
- As securities lending revenue sharing does not increase the costs of running the sub-fund, this has been excluded from the ongoing charges.

For more information, please see the charges section of the Fund’s prospectus, which is available at www.ubs.com/etf.

Past performance

Performance in the past is not a reliable indicator of future results.

The chart shows the class’s investment returns calculated as percentage year-end over year-end change of the class net asset value. In general any past performance takes account of all ongoing charges, but not the entry charge. If the sub-fund is managed against a benchmark, its return is also shown.

The class was launched in 2002.

The past performance is calculated in EUR.

2008: investment policy change, i.e. the performance before that date was achieved under conditions that no longer apply (benchmark: Dow Jones Germany Titans 30 Index).
