

Market ski routes 2017

The map shows the ski routes for the Easter season. Before and after Easter fewer routes are marked and fewer cabins are open. Check the latest updating for each cabin at dntoslo.no or contact your local "Turistforening". Be aware of possible changes and delays in marking due to weather conditions. The markings are done in different ways and the standard may vary. The routes are meant for skiing but could also be used for snow shoeing. The map was updated 23rd of November 2016. DNT will take no responsibility for misprints or changes
