R ²		.126	.134	.135	.051	.073
Adjusted R ²			.127	.129	.044	.066
Observations		4318	4318	4318	4318	4318

Note. For employment, pseudo R² were presented. The remaining adjustment outcomes were standardized before analysis. Unstandardized beta coefficients for the interaction effects with residency status (residence permit = 1) and standard errors in parentheses were presented. * p < .05, ** p < .01, *** p < .001.
