The screenshot displays the UCAS website interface. At the top, the navigation menu includes 'UCAS', 'Advisers', 'Providers', 'Corporate', and 'Connect'. The main content area is titled 'Search for taster courses here' and is powered by MeetUniversity.com. A search form is prominently displayed with the following fields:

- Type:** A dropdown menu currently set to 'Any'.
- Subject:** A dropdown menu currently set to 'Any'.
- Keywords:** A text input field with an 'Apply' button.

Below the search form, there is a link to 'Show more search options >>' and a 'Reset Search' link. The search results section shows '508 events listed' and includes filters for 'Sort By' (set to 'Provider') and 'No. of results' (set to 'Show 5 results'). A pagination bar indicates the current page is 1 of 5.

The first event listed is 'Study in Scotland General Presentation' by Aberdeen University. The description states: 'This workshop is for bookings made by teachers for their school groups. It will introduce students to the Scottish higher education system, and include more information on studying at a Scottish university.' The event date is noted as 'We can deliver this event at your institution. Please contact us to arrange a date.' A 'View More' button is provided for this event.

The second event listed is 'UCAS Personal Statements Workshop' by Aberdeen University.

On the left sidebar, there is a 'Getting started' section with various links such as 'The undergraduate experience', 'Thinking about uni?', 'What to study', 'Flexible and part-time study', 'Alternatives to higher education', 'Events and open days', 'Virtual tours', 'Learn about uni on a taster course', 'When to apply', 'Entry requirements', 'International and EU students', 'Mature students', 'Individual needs', 'Parents and guardians', and 'Astudio yn y Gymraeg'. There is also a 'UCAS Events on Twitter' section with a tweet from 'about a day ago' mentioning '#HE guidance on interviews', 'admission tests and selection criteria for competitive courses', and a URL 'http://t.co/AIzLOVb9N'.
