You can find full details of your course in the *Programme Specification*.

Important points

- This programme meets the Nursing and Midwifery Council (NMC) requirements for student nurses, who upon successful completion will be eligible to apply for registration with the NMC.

- You will be subject to Enhanced Disclosure and Barring Service (DBS) checks and Occupational Health (OH) Screening:
  a) Non-disclosure of any criminal activity prior to or during your studies may lead to your withdrawal from the programme, as outlined in the School's Disclosure and Barring Service Procedure.
  b) OH Screening will assess your ability to meet the programme requirements as set out in accordance with the Professional Statutory and Regulatory Bodies (or equivalent bodies). OH clearance will be required prior to attendance on placement. If for any reason, you should fail to obtain OH clearance this will prevent you from meeting the programme requirements and may lead to your withdrawal from the programme.

- You must comply with the ‘Principles of Professional Behaviour’ expected of students detailed in the University’s Fitness to Practise Policy, in order to demonstrate that you are fit to practise; failure to do so may result in referral to University Fitness to Practise processes.

- The University’s Fitness to Practise Policy and Regulation (UPR SA15) can be accessed via the *Index to the UPR series*. The current version of the School’s Disclosure and Barring Service Procedure is available at this link [HSK DBS Procedure](#). Please read these policies and procedures carefully before accepting your offer and let us know if you have any questions about anything in them.

- In line with NMC and key stakeholder requirements, this programme and its content is occasionally subject to review, which may result in enhancements being made to the programme.

- On-campus accommodation for students: Due to the nature of your programme, your studies are likely to continue over the summer period, requiring an extended period of accommodation on campus. There are two accommodation options available to you:
- Option 1: 42 week accommodation: if you opt for this accommodation contract but need to stay on campus for up to 50 weeks, this will mean that you will have to move accommodation and we cannot guarantee that this will be at the same cost, and may be higher.

- Option 2: 50 week accommodation: if you opt for this accommodation contract, which is recommended, this will allow you to complete your studies over the summer period without having to move accommodation. If you choose this option you cannot change to a 42 week contract at a later stage.
