## About your course

### Courses covered

Code	Title
HHEM	MSc Environmental Management MSc Environmental Management for Agriculture MSc Water and Environmental Management

You can find full details of your course in the *Programme Specification*.

### Important points

Full-time and part-time students are taught together on two- or three-day short courses, which are followed by tutorials and assignments in the following 8-10 weeks. Part-time students do not have to attend tutorials. This model of delivery ensures that study can be combined with full-time employment.

Students may enrol for a Semester A or Semester B start, on a full-time or part-time basis.

All MSc students will carry out a research project that will normally be an in-depth investigation of an aspect of environmental management.

Successful completion of the programme confers professional accreditation by both IEMA and CIWEM and so offers genuine career development opportunities to all students.

### Academic Year 2018-19

The academic year is split into three Semesters (A, B & C). Teaching on the MSc Environmental Management programmes runs through Semester A, Semester B and Semester C. Semesters A and B are made up of teaching weeks followed by exams. (The re-sit period falls within Semester C).

- Semester A runs from Monday 17 September 2018 to Friday 11 January 2019
- Semester B runs from Monday 14 January 2019 to Friday 17 May 2019
- Semester C runs from Monday 20 May 2019 to Friday 13 September 2019

## Additional expenses

Description	Year	Mandatory/ Optional	Estimated cost
Outdoor clothing and footwear for fieldwork	1	Advisable for some modules involving work outdoors	£150

Additional expenses may be incurred for individual research projects, depending on the nature and location of the research, and methods used. Examples include travel to and from research sites, or laboratory costs. These will be specific to each project and can be taken into consideration when research project topics are developed.
