You can find full details of your course in the *Programme Specification*.

### Important points

- Recognised by the Institute of Manufacturing (IManf). Recognised from intake 2016 until intake 2021.
- The University of Hertfordshire has over 60 years' experience of teaching engineering, we have long-established links with industry. Our links with businesses ensure that our courses are tailored to meet the needs of employers. Our industry partners take a keen interest in promoting and supporting our courses and facilities
- This master's course was introduced in response to the growing importance of professionally-managed purchasing and supply chains, as well as recognising the strategic value of skilled operations managers.
- This course will develop skills and advance knowledge on operations management, operations research, procurement and supply chain management, financial control, manufacturing information systems, manufacturing strategy; legal aspects of supply chain; and human resources management.
- Growth area of logistics is discussed covering supply chain from a legal point of view and procurement issues. Case Studies based on real life examples are used to highlight issues, challenges and best practice situations.

### Academic Year

#### *Academic Year 2018 - 2019*

The University's academic year is made up of 3 Semesters. For most undergraduate/postgraduate students the academic year is split into two Semesters (A & B). Each of these is made up of teaching weeks followed by exams (the re-sit period falls within Semester C)

- Semester A runs from Monday 17 September 2018 to Friday 11 January 2019
- Semester B runs from Monday 14 January 2019 to Friday 17 May 2019
- Semester C runs from Monday 20 May 2019 to Friday 13 September 2019

## Course delivery

- For those that enter Semester A, around mid-September, there will be a continuous 1 year of study full time. Those who join in Semester B, around mid-January, the fulltime period of study includes a study break for June to September, then study recommences.
  - (Entry Semester A Full Time - 1 year duration; Part Time 2 years)
  - (Entry Semester B Full time - 18 months duration, Part time 3 years)
- The course comprises of eight 15-credit modules and one final 60 credit individual project, attendance is required each week for approximately 12 hours of lectures and tutorials.
- There is an expectation of independent study time for each module again around the 10 or 12 hours per week in addition to assessment preparation and submissions.
- You will find full details on your assessment schedule in the relevant Module Guide, which will be published at the start of each module.

## Method of assessment

- Modules are typically assessed by combination of coursework and examinations and the contribution to the final mark is usually applied as 40% coursework and 60% examination.
- The dates of assignment submission and examinations are fixed and notified to students in advance.
