About your course

Courses covered

Code	Title
HHMCLP	MSc Research in Clinical Psychology

You can find full details of your course in the *Programme Specification*.

Important points

- This Masters programme is particularly attractive to those wishing to pursue a professional career in Clinical Psychology, or a career as a researcher in the area of mental health.
- It provides you with an up-to-date introduction into Clinical Psychology covering all essential areas of knowledge relating to current theories of psychopathology, psychiatric diagnosis and psychological methods of assessment as well as effective psychological interventions.
- The module Professional Clinical Skills will introduce you to professional standards in clinical psychology and provides you with an opportunity to practise those skills in a simulation exercise.
- A particular strength of the programme is its intensive research training in the area of quantitative and qualitative research. This should enable you to develop your competence in applying such methods to research problems in the area of clinical psychology.
- The module Research Apprenticeship in Clinical Psychology allows you to familiarize yourself with professional research through practical experiences under supervision.
- Following on from your apprenticeship, you will then conduct your own research for your Masters thesis in an area of your interest under supervision.
- You will be taught in a dedicated postgraduate teaching room. Teaching includes lectures, seminars, practical sessions in class, workshops, group work and simulation exercises.
- There are two major components of assessment, exams and written coursework. Coursework is by far the larger component, and each of the four exams counts 50% towards the final mark for a module.
- Part-time and full-time routes are both available.

Academic Year

Academic Year 2018 - 2019

The University's academic year is made up of 3 Semesters. For most undergraduate/postgraduate students the academic year is split into two Semesters (A & B). Each of these is made up of teaching weeks followed by exams (the re-sit period falls within Semester C)

- Semester A runs from Monday 17 September 2018 to Friday 11 January 2019
- Semester B runs from Monday 14 January 2019 to Friday 17 May 2019
- Semester C runs from Monday 20 May 2019 to Friday 13 September 2019

Additional expenses

No additional expenses have been specified for this course.
