Courses covered

Code	Title
CTMARCH	MArch Architecture and Urbanism

You can find full details of your course in the *Programme Specification*.

Important points

The Architecture award is intended to equip graduates with the knowledge, skills and professional accreditation from The Royal Institute of British Architects (RIBA) and the Architects Registration Board (ARB) for Part II.

The Programme will be seeking prescription by the Architects Registration Board (ARB) at Part 2 level, for the purpose of registration in the UK.

Students develop themselves professionally through supervision, reflection and by articulating their practice in projects, writing, research and presentations.

Building on the current volume of projects and local and industry contacts in the School, this Programme includes a deeper level of analysis and intervention in the territory and local communities. A strong connection with local and global architectural practices is one of the key features of the award, with students spending a portion of their studies working “as in” practices and through an office-structure within the School as part of their modules.

Across the modules, we integrate design, professional practice, and technology where students are trained in a working environment simulating a real world practice scenario.

The new provision will focus on fringe conditions, peripheries, rapid and sustainable urban growth, gentrification, new towns and garden cities, future, smart and digital cities, suburbia, edge urban conditions, in connection with local communities and inclusive societies.

Academic Year

Academic Year 2019 - 2020

The University's academic year is made up of 3 Semesters. For MArch Architecture and Urbanism students the academic year is split into two Semesters (A & B). Each of these is made up of teaching weeks followed by assessment (the re-sit period falls within Semester C).

- Semester A runs from Monday 23 September 2019 to Friday 17 January 2020
- Semester B runs from Monday 20 January 2020 to Friday 22 May 2020
- Semester C runs from Monday 25 May 2020 to Friday 18 September 2020

For further details, please visit: <https://www.herts.ac.uk/study/term-and-semester-dates>

Additional expenses

Please see below a list of expected materials you will need for your studies. You will be given detailed lists when the course starts.

Description	Year	Mandatory/Optional	Estimated cost
Supplies	1-2	mandatory	£400
Initial kit, including Scissors, Swann Morton Scalpel Handle no.3, Swann Morton Blades 10A), Cutting mat (size 600x450mm minimum), 30cm metal ruler, Pencil sharpener, and Craft knife.	1	Mandatory	£40

Other costs			
Study trips***	ongoing	Mandatory	£400 per year approx.
Site visits****	ongoing	Mandatory	£60
Competition entry	3	Optional	£100-200
Magazines and books	ongoing	Optional	£200
Printing and binding	ongoing	Mandatory	£200-£300
London Trade Shows/events/talks	ongoing	Optional	£100

There is a student store which has some art/ making materials available at a student discount. Also, many of the university workshops have recycled, or discounted materials made available. Students can consult with workshop staff for advice on this.

Note: Materials do not have to all be brand new purchases – we encourage students to recycle materials, which can often be found for free. For example, cardboard, and timber pallets can be used to make models and prototypes.

*COMPUTERS

PCs and MACs are available in the School, but many students chose to buy their own laptops, with customised graphics capability. Currently the typical recommended specification is:

- Intel® Core 2 or AMD Athlon® 64 processor; 2 GHz or faster processor
- 4 GB or more of RAM (8 GB recommended)
- Graphics Card: nVidia GeForce GTX 965M & 980M (the equivalent or higher)

You may also wish to buy your own software licences, such as those for Rhino, Lumion, and Photoshop, though much is available with a student discount. All the software included in the Autodesk suite (Autocad, Revit, 3DMax, Maya etc.) are free for students for educational use only.

** This is an indicative cost – how much you use and need to replace these supplies will depend on your own style of working and process

***STUDY TRIPS

Europe and overseas. Typically, there is a minimum option of one field trip offered each year. These are Optional. Destinations will vary year by year, but as a guideline:

£400 - £1000 air fare (Former=Europe, Latter = Overseas) with accommodation included.

Also allow extra for subsistence (eg. food), and local travel (eg. public transport).

****Local trips

You will be required to pay costs for any local/ short UK based field trips (eg to London, Welwyn etc.).
