About your course

Courses covered

Code	Title	UCAS Code
HHRGI	BSc (Hons) Diagnostic Radiography and Imaging	B821

You can find full details of your course in the *Programme Specification*.

Important points

- This programme meets the Health and Care Professions Council (HCPC) requirements for student radiographers, who upon graduation will be eligible to apply for registration with the HCPC.
- You will be subject to Enhanced Disclosure and Barring Service (DBS) checks and Occupational Health (OH) screening:
 - a) Non-disclosure of any criminal activity prior to or during your studies may lead to you being withdrawn from your programme, as outlined in the School's Disclosure and Barring Service Procedure.
 - b) OH screening will assess your ability to meet the programme requirements as set out in accordance with the Professional Statutory and Regulatory Bodies (or equivalent bodies). OH clearance will be required prior to your attendance on placement. If for any reason, you should fail to obtain OH clearance this will prevent you from meeting the programme requirements and may lead to your withdrawal from the programme.
- You must comply with the 'Principles of Professional Behaviour' expected of students detailed in the University's Fitness to Practise Policy, in order to demonstrate that you are fit to practise; failure to do so may result in referral to University Fitness to Practise processes.
- The University's Fitness to Practise Policy and Regulation (UPR SA15) can be accessed via the Index to the UPR series. The current version of the School's Disclosure and Barring Service Procedure is available at this link [HSK DBS Procedure](#). Students should read them carefully before accepting their offer, and contact us if they have any questions about anything in them.
- From 2018, new students will have access to the standard student support system provided by the Student Loans Company (SLC) to cover the cost of their tuition fees (which may include, as appropriate, costs associated with placement attendance) and means tested support for living costs. Further funding information for studying nursing, midwifery and allied health professions is available on The Funding Clinic website at <http://www.thefundingclinic.org.uk/>
- We would normally expect you to have reached the age of 18 years old on or before the date of your registration on your programme. If your application is successful, we will make every reasonable effort to provide your educational and other services to the standards set out in our published material. We recognise that you expect to receive the educational service you are paying for. However, there may be circumstances outside our control which have an impact on how we provide our services to you. Due to the nature of certain programmes of study, we advise those of you who will be under 18 years

of age on or after the date of registration that this may have financial implications and/or an impact on the structure, timing and trajectory of your studies. This is because safeguarding students under the age of 18 can present challenges in securing an appropriate range and scope of practice placements. If this should occur, we will use every reasonable effort to minimise the impact and will take all reasonable steps to ensure that your study and experience is not disrupted. We would welcome your application and, if you have any concerns, would be pleased to discuss your options with you.

Academic Year

Academic Year 2021 – 2022

The University's academic year is made up of 3 Semesters. For most undergraduate/postgraduate students the academic year is split into two Semesters (A & B). Each of these is made up of teaching weeks followed by exams (the re-sit period falls within Semester C)

- Semester A runs from Monday 27 September 2021 to Friday 21 January 2022
- Semester B runs from Monday 24 January 2022 to Friday 13 May 2022
- Semester C runs from Monday 16 May 2022 to Friday 09 September 2022

Expected workload

Please find below an estimate of how your time will be spent on this course during each year of study.

	Lectures, seminars, tutorials	Independent study	Placement
Year 1	16%	57%	27%
Year 2	15%	63%	22%
Year 3	10%	62%	28%

Method of assessment

	(Written in-course tests)	Written coursework	Practical
Year 1	(60%)	100%	0%
Year 2	(60%)	100%	0%
Year 3	(40%)	60%	40%

Additional expenses

Description	Year	Mandatory/ Optional	Estimated cost
Placement travel expenses	All	Mandatory	Variable * Dependent on eligibility and location of placement, costs for travel normally average between £80-£400 per placement
Accommodation during clinical placements	All	Mandatory	Estimated cost £275-£800 per placement *

Society of Radiographers Membership	All	Mandatory	1 st year free Estimated cost £45.00 per annum
Appropriate footwear for placements (black shoes [not sandals or open toes])	All	Mandatory	£20-£100
Black cardigan for placement	All	Optional	£10-£30

<p>Books</p> <p>Undergraduate study requires extensive reading and access to reference works. Recommended texts are available in the Learning Resources Centre either as eBooks or printed material. Please note that availability of printed material may be limited so students may wish to purchase their own copies. You will be studying 5 - 6 modules per year each with a variable number of recommended texts. You will use a number of these texts in multiple modules and across the programme (e.g. radiographic positioning and imaging texts, anatomy, physiology and pathology texts).</p>	All	Mandatory	Estimated cost £50-£70 per text
<p>Replacement costs for ID Badges</p> <p>ID badges, name badges and personal monitoring badges will be given to you at the beginning of Year 1. If you lose these then you will have to pay replacement costs.</p>	All	Mandatory	Estimated costs ID Card replacement £10 Name badge £5 Personal monitoring badge £5

*Eligible students are able to claim back their costs, in line with NHS criteria

Attendance

The expectation is that you will attend all your taught and practical sessions and clinical placement.

Programme accreditations

The BSc (Hons) Diagnostic Radiography and Imaging programme is accredited by the professional body, the Society and College of Radiographers and the national UK regulatory body, the Health and Care Professions Council

Mandatory modules

All modules are mandatory on this programme
