Important points

'MSc International Tourism, Hospitality and Event Management with Advanced Research' is a full-time, two-year programme designed to respond to the enhanced levels of skills and learning necessary to make key decision-making within the international tourism, hospitality and event industries. Governments, industry, and the media have all recently stated that there is a need for improved knowledge and skill levels within the sector.

This programme is designed to recruit those students who already hold a degree, or alternatively possess the necessary industry experience to act as a foundation for higher levels of learning and the application of theory to practical situations. It caters for local and international professionals within the industry who wish to gain the necessary qualifications and theoretical awareness to enable them to advance their careers in industry. A distinctive feature of this programme is that it offers students the opportunities to interact with current industry practices and therefore enables a hands-on approach working with practitioners. The programme is underpinned by a strong theoretical base, across a number of contexts relevant to tourism, hospitality and event management in contemporary international environments.

'MSc International Tourism, Hospitality and Event Management with Advanced Research' provides a second, taught year in which students study advanced business research and professional and consultancy skills. Students study these in their second year, after their Summer vacation, alongside their postgraduate dissertation.
