About your course

Courses covered

Code	Title
LMEMM	MSc Environmental Management
LMEMAGM	MSc Environmental Management for Agriculture
LMWEMM	MSc Water and Environmental Management

You can find full details of your course in the *Programme Specification*.

Important points

- Full-time and part-time students are taught together in two- or three-day block delivery, which is followed by tutorials and assignments in the following 8-10 weeks.
- Part-time students do not have to attend tutorials on campus. This model of delivery ensures that study can be combined with full-time employment.
- Students may enrol for a Semester A or Semester B start, on a full-time or part-time basis.
- All MSc students will carry out a research project that will normally be an in-depth investigation of an aspect of environmental management.
- The programme, including the pathways in Environmental Management, Water and Environmental Management and Environmental Management for Agriculture, are accredited by the Institute of Environmental Management and Assessment, and the Chartered Institution of Water and Environmental Management, and so offers genuine career development opportunities to all students.

Academic Year

Academic Year 2023 – 2024

The University's academic year is made up of 3 Semesters (A, B and C). Semester A and B are made up of teaching weeks followed by exams, where applicable (the re-sit period falls within Semester C). Semester C is normally used for final dissertations and projects.

- *Semester A runs from Monday 25 September 2023 to Friday 19 January 2024*
- *Semester B runs from Monday 22 January 2024 to Friday 10 May 2024*
- *Semester C runs from Monday 13 May 2024 to Friday 6 September 2024*

Additional expenses

Description	Year	Mandatory/ Optional	Estimated cost
Outdoor clothing and footwear for fieldwork	1	Advisable for some modules involving work outdoors	£150
Additional expenses may be incurred for individual research projects, depending on the nature and location of the research and the methods used. Examples include travel to and from research sites, or laboratory costs. These will be specific to each project, and can be taken into consideration when research project topics are developed.			
No additional expenses have been specified for this course.			

Please be aware that some teaching sessions may be delivered online. Therefore, to study online you will need access to a suitable computer or similar electronic device and a good reliable Internet connection, which may incur additional expenses.

Please note that our Learning Resource Centres (LRCs) have PCs and Macs available to use, including hi-spec PCs. The university also has laptop loans available at both LRCs and provide a remote desktop portal service to allow users to access the software on Lab and LRC Windows PCs when not on campus.
