LEAVING NO ONE BEHIND

Using a multidimensional approach to eradicate poverty and monitor SDG progress at the national level

18 July 2019

1:15 – 2:30 pm

CONFERENCE ROOM 3

UN Secretariat

Poverty is a complex and multidimensional phenomenon that goes beyond the simple lack of income. Multidimensional poverty measures can be used to create a more comprehensive picture of the experiences and challenges of poverty.

UNDP and the Oxford Poverty & Human Development Initiative (OPHI) developed a Handbook, [How to Build a National Multidimensional Poverty Index \(MPI\): Using the MPI to inform the Sustainable Development Goals \(SDGs\)](#), to be launched at this event.

The event will showcase experiences from Colombia, Guatemala, and Pakistan.
