The event will highlight the crucial role of Education for Sustainable Development (ESD) as a key enabler for the successful achievement of the Sustainable Development Goals, and outline how ESD can contribute to building back better from the COVID-19 pandemic.

Building on the momentum for strengthening ESD in policy and practice, the discussion will shed a light on the ways to harness the transformative power of ESD in achieving sustainable societies and update the UN membership on the latest developments and trends.

Consisting of a briefing session and a panel discussion, the event will provide a platform for participants from the UN Member States, UNESCO, other intergovernmental organisations and academia will engage with the audience.
